

A person is seen climbing a tall, narrow rock formation on the right side of the image. The climber is positioned about halfway up the rock face. The background features a vast mountain range with some snow-capped peaks under a cloudy sky. In the foreground, there is a lush green valley with a winding road and a body of water in the distance. The overall scene is a dramatic and scenic outdoor setting.

Circuit

NEW

Engineered for ultimate comfort, the Circuit is stylistically sharp, sticky, and ultra-durable, making for a performance lifestyle shoe that's equally at home at the gym, crag, or bar. Featuring a breathable knit upper for temperature control and a low-rise, collapsible heel that can easily flip down for a slip-on feel, the Circuit can also handle approaches thanks to its Black Diamond BlackLabel-Street sticky rubber outsole. Rubber toe protection adds security, and the webbing loops allow for various tagging and stowing options for when the trail ends and the climbing begins.

FEATURES

- Durable and premium breathable knit upper
- Black Diamond BlackLabel-Street sticky rubber outsole
- Rubber toe protection
- Super comfortable molded EVA midsole
- Collapsible heel for easy use at the gym or crag
- Webbing loops for various tagging options

Session

NEW

Engineered to send in style, the Black Diamond Session combines ultimate comfort with performance features that seamlessly transitions from the gym to the crag and then out to the city streets. You'll first notice how the shoe slips on thanks to the stretch-fit heel for easy on/off transitions. Then the integrated bootie wraps your foot like a sock, while the breathable knit upper regulates the temperature and stretches where you need while on the move. The tuned EVA midsole keeps you cushioned and stable, while the Black Diamond BlackLabel-Street sticky rubber adds grip for approaches or commutes. Finally, webbing loops provide tagging or stowing options for trails that end at the cliff.

FEATURES

- Durable and premium breathable knit upper
- Black Diamond BlackLabel-Street sticky rubber outsole
- Rubber toe protection
- Super comfortable molded EVA midsole
- Comfortable sock-like bootie fit
- Elastic heel strap for easy on/off at the gym or crag
- Webbing loops for various tagging options

Technician

Engineered for precision, the Black Diamond Technician is ultralight, super sticky, and durable, making it the clutch scrambling approach shoe. Featuring our signature EnduroKnit breathable upper, the Technician has superior temperature control, while remaining durable for abuse on the rocks. The lightweight half-bootie tongue allows for easy on and off at the crag, and a TPU midfoot strap and lace lock adds security while the graduated lace system goes all the way to the toe for a lockdown fit. The Technician's tuned EVA midsole consists of a strategic stiffness-to-comfort ratio, allowing for high-performance precision where you need it, and comfort in just the right spots. The last is ideal for technical climbing, as the name implies, and the shoe's Black Diamond BlackLabel-Mountain rubber provides super sticky, ultimate grip on terrain that demands precise edging and smearing you can trust your life to. Finally, the Technician's multiple webbing loops offer various tagging and stowing options for when the approach ends and the hard climbing begins.

FEATURES

- EnduroKnit is a one piece breathable, durable knit upper
- Black Diamond BlackLabel-Mountain rubber is high performance sticky rubber
- Rubber toe protection
- Tuned EVA midsole for stiffness and comfort
- Toe shape and upper construction ideal for technical climbing
- Lightweight half-bootie tongue allows easy on/off at the crag
- 3D Wrap Construction: free floating compression fit
- Lightweight, molded TPU midfoot strap and lace lock
- Multiple webbing loops for various tagging options

Mission LT

Engineered for speed approaches, the Black Diamond Mission LT is the approach shoe you want for mountain adventures that push the barriers in both scale and technical terrain. Designed with a sock-like, bootie fit, that's reinforced with a webbing cinch system, the Mission LT is lightweight and slips on to provide security and comfort that lasts all day. The Mission LT features our signature EnduroKnit, which is a one-piece, ultra-breathable upper for lasting temperature regulation that's hyper-durable for season after season of abuse. A tuned EVA midsole provides ample stiffness for technical precision, while remaining comfortable and the nylon rock plate provides protection. The Mission LT's high-performance Black Diamond BlackLabel-Mountain rubber is super sticky, allowing you to grip through technical moves on 5th class terrain with ease, and the rubber toe protection gives the Mission LT added security. Multiple webbing loops give you plenty of tagging and stowing options when the approach ends and the hard climbing begins.

FEATURES

- EnduroKnit is a one piece breathable, durable knit upper
- Black Diamond BlackLabel-Mountain rubber is high performance sticky rubber
- Rubber toe protection
- Sock-like bootie fit
- Nylon rock plate for protection
- Tuned EVA midsole for stiffness and comfort
- 3D Wrap Construction: Webbing reinforced free floating
- Multiple webbing loops for various tagging options

Climbing Shoes

Featuring Engineered Knit Technology and a unique molded rubber, our climbing shoes are designed to provide unparalleled comfort with exceptional performance.

Zone Shoe Technology

ENGINEERED KNIT TECHNOLOGY

Breathable, quick drying and keeps the feet cooler—all allowing for better skin to shoe friction for optimal performance.

EXTRA WIDE POWER STRAP

Lightened by the perforations, this wide strap helps better contain the instep of the foot from expanding, thusly making the foot tighter and more stable.

LIGHTWEIGHT STABILIZER BARS

This hugs the outside of the foot preventing the foot from rolling around inside the shoe.

PRINTED RUBBER

Offers a sticky platform for toe hooking without the pain and tightness of a big slab of thick rubber, allowing for comfort and performance.

MEDIUM FLEX PEBAX MIDSOLE

3d injection molding allows this chassis of the climbing shoe to maintain its shape longer—from the time you first buy the shoe to even after several resoles. Medium flex allows for a balance of sensitivity and edge control for optimal performance while climbing in the gym or sport climbing outdoors.

MOLDED FUSE RUBBER OUTSOLE

Our softest and stickiest rubber for maximum shoe-to-rock adhesion.

Aspect

Built to handle endless splitters of the Creek, cragging days at City of Rocks and the notorious slabs of Little Cottonwood Canyon, the Aspect is an engineered trad climbing machine. Designed with fine, durable leather, our innovative proprietary molded rubber and an Engineered Knit Technology tongue, this flat-lasted, slightly asymmetrical lace-up is perfect for plugging gear at the cliff.

FEATURES

- Neutral, flat last for all day cragging comfort
- 4.3mm BD BlackLabel-Force Rubber is purpose-built for edging and molded for optimal consistency and performance
- Engineered Knit Technology tongue provides exceptional breathability, comfort and extra padding for crack climbing
- Internal Lace Protection System for crack climbing
- Medium-flex midsole adds support without sacrificing sensitivity
- Lateral stabilizer rands increase precision by keeping your foot from rolling over when pressure is applied to the outside or inside edges
- Highest grade European leather upper
- Unisex

Focus - Men's

When you're run out and staring at the crux, it's time to Focus. Engineered for high-end climbing, the Focus is built for routes and boulder problems that demand precision. Featuring a slightly downturned last with Force rubber, durable leather, and our Engineered Knit Technology, the Focus is a high-performance Velcro shoe ready for the redpoint.

FEATURES

- Moderate, slightly down-turned last for technical climbing on vertical to gently-overhanging terrain
- 4.3mm BD BlackLabel-Force Rubber is purpose-built for edging and molded for consistency and performance
- Engineered Knit Technology tongue provides exceptional breathability and comfort
- Fine, durable leather upper
- High friction rubber is printed on the shoe to minimize bulk and maximize dexterity and grip for toe hooking
- Velcro straps for fit adjustability
- Medial and Lateral stabilizer rands increase precision by keeping your foot from rolling when pressure is applied to the outside or inside edges
- Hemp liner for performance and reduces odor after extensive use

570102

Shadow

When your project is so steep that it always casts a shadow, that's when you bust out these secret weapons. Built for overhanging sport routes and hard bouldering, the Shadow LV features an aggressive, downturned last that's low volume and paired with our molded sticky rubber—inspired by the way we forge our carabiners—and not cut from one sheet of rubber. This is our engineered solution to optimize our shoe's rubber and rands for weight, consistency and comfort. The Shadow features a stretch resistant microfiber upper, and the shoe's vamp features an innovative combination of printed and molded high friction rubber. The molded rubber is strategically placed in high-use areas, while the printed rubber minimizes bulk, and in combination, these rubbers provide better top of foot dexterity and purchase when toe-hooking. The tongue is made from our Engineered Knit Technology, which is exceptionally breathable and increases mobility and comfort. With a minimalist midsole, the Shadow is ultra-sensitive and allows you to pull in on steep terrain.

FEATURES

- Aggressive, downturned last for steep routes and bouldering
- 4.3mm BD BlackLabel-Fuse Rubber is printed and molded for superior grip, optimal consistency, and performance
- Engineered Knit Technology tongue provides exceptional breathability and comfort
- Minimalist midsole for extra sensitivity on steep terrain
- A combination of printed and molded high friction rubber maximizes durability, dexterity and grip for toe-hooking
- Velcro strap for fit adjustability

Harnesses

A secure, durable and functional harness is an absolute must—which is why they have been an integral part of BD for more than 25 years.

airNET Harness Technology

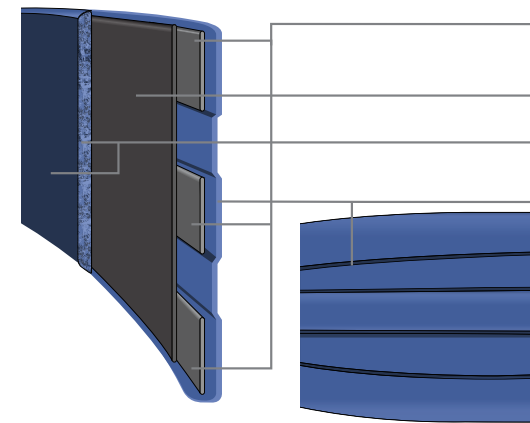

OUR LIGHTEST, MOST BREATHABLE HARNESS YET, WEIGHING ONLY 235 GRAMS. THE AIRNET FEATURES OUR NEW PATENTED STRUCTURAL NET AND SEAMLESS BELAY LOOP.

Harness Construction

FUSION COMFORT CONSTRUCTION™

Featured on our Solution, Zone, and Technician harnesses.

Intent on building a harness that would move with the body it protects, we designed a triple-weave webbing on the interior of the harness's waistbelt that provides movement-focused technology while maintaining superior breathability, durability and strength. Also featured on the harness's leg loops, this technology offers excellent load sharing, relieving pressure from sensitive points of contact.

- Load Sharing: Two or three bands of webbing distribute pressure evenly across the entire waistbelt.
- EVA Foam Insert: A supportive, continuous foam insert for total comfort, EVA foam adds structure and body while maintaining a lightweight construction.
- Lining: Soft, breathable and quick-drying mesh padding maximizes comfort.
- Shell: With a stretch woven laminate and a tight weave, durability is paramount.

DUAL CORE CONSTRUCTION™

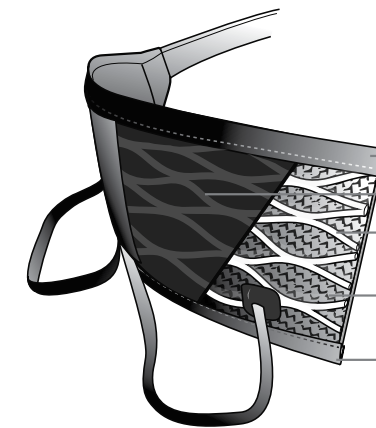

Featured on our Momentum family harnesses.

Dual Core Construction combines a supportive yet lightweight design with the ultra-comfortable load-distribution. Dual Core Construction consists an OpenAir waistbelt that uses two separate bands of webbing around the outside of the frame and a supportive insert in the center to allow for maximum breathability. Leg loops constructed from a single strand of full-width high-tensile nylon allow for total support and comfort when hanging in the harness.

- Shell: Abrasion-resistant nylon shell
- Lining: Soft, breathable and quick-drying
- Dual Core Construction: Two bands of webbing distribute pressure evenly across the waistbelt
- CLPE Foam Insert: Supportive, continuous foam insert for total comfort

airNET CONSTRUCTION™

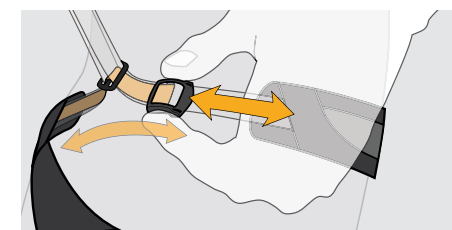

- Edge Tape: No sew bonded edge is durable and soft next to skin
- Shell: Abrasion-resistant breathable shell fabric
- Load Sharing: Dynex net
- Lining: Soft, breathable and quick drying
- Edge Tape: No sew bonded edge is durable and soft next to skin

OTHER FEATURES

trakFIT™

No buckle, no hassle—trakFIT is a simple and secure patented innovation for adjusting leg loops that uses a slide adjuster for quick and easy fitting. To tighten or loosen, simply move the slide adjuster along the leg loop's webbing. The diameter automatically adjusts and provides an incredibly wide range with no dangling webbing and no chance of mis-threading.

Black/White

Women's airNET Harness NEW

Developed in collaboration with the BD Athlete Team, the airNET is a cutting-edge harness built for the 2020 Olympics. Featuring patented airNET Technology—which is ultra-breathable for high-end performance while distributing loads evenly across the “net” during falls—the airNET also includes a patented Infinity Loop for belaying, which is durable, low profile, and eliminates the dreaded belay-loop-shift when dogging a route and the belay loop seam catches. At a svelte 227 grams (women's medium) we've included two pressure molded gear loops in the front while keeping the rear gear loops low-profile webbing—a request from Ondra who had cut the back gear loops from his competition harnesses to save weight and reduce bulk. Black Dynex lower and upper tie-in points are durable and light, and the seamless, taped edges of the waistbelt and leg-loops proved next-to-skin comfort during intense redpoints.

FEATURES

- Athlete driven—designed in collaboration with the BD Athlete Team
- Patented airNET Technology is ultra-breathable for high-end performance while distributing loads evenly across the “net” during falls
- Patented Infinity Loop for belaying, which is durable, lightweight and seamless.
- Two pressure molded gear loops in front; Lightweight low-profile webbing gear loops in back

HELMETS

Half Dome

The Half Dome has long been a staple for climbers worldwide. Now redesigned, the helmet features a new lower profile suspension system with a one-handed dial combined with streamlined headlamp clips for added comfort and simplicity. Finally, an updated chin strap adds more efficiency and security while on the rock.

FEATURES

- Co-molded EPS foam with low-profile polycarbonate shell
- Updated, low-profile suspension system
- Streamlined, lightweight headlamp clips
- One-handed fit adjustment dial
- Easily adjustable chin strap

620209

BD Orange, Denim, Rain, Slate

Half Dome - Women's

The tried-and-true construction of our classic Half Dome helmet, now with a women's-specific design and improved features.

FEATURES

- Co-molded EPS foam with low-profile polycarbonate shell
- Women's-specific fit
- Ponytail-friendly shell design
- Lightweight headlamp clips
- One-handed fit adjustment dial
- Easily adjustable chin strap

620208

Vision - Women's NEW

The most durable foam helmet in the Black Diamond line-up, the Vision helmet features a fusion of EPP foam, an EPS foam puck, and a polycarbonate shell, which keeps the dings and dents at bay, while remaining incredibly lightweight at just 215 grams. Improved side and back coverage add a new level of protection that meets proposed UIAA requirements, while the strategically placed ventilation ports keep the air flowing when temps are high. The suspension system and chin strap keep the Vision sleek, and the integrated headlamp clips are low-profile so they don't snag on over-the-shoulder slings and allow you to easily light the way on sends that push past the daylight hours.

FEATURES

- EPP + EPS + polycarbonate shell combo creates most durable foam helmet in Black Diamond line-up
- Low-profile suspension system
- Integrated headlamp clips
- Removable / reverse Velcro pads
- 215g
- S/M

PATENTED BRAIN PROTECTION SYSTEM

The MIPS Brain Protection System utilizes a Low Friction Layer which allows the helmet to slide relative to the head. The MIPS BPS has been scientifically proven to reduce rotational forces transferred to the brain by absorbing and redirecting rotational motion.

The MIPS Brain Protection System utilizes a Low Friction Layer which allows the helmet to slide relative to the head. The MIPS BPS has been scientifically proven to reduce rotational forces transferred to the brain by absorbing and redirecting rotational motion.

The MIPS Brain Protection System utilizes a Low Friction Layer which allows the helmet to slide relative to the head. The MIPS BPS has been scientifically proven to reduce rotational forces transferred to the brain by absorbing and redirecting rotational motion.

Vision MIPS

NEW

The most durable foam helmet in the Black Diamond line-up, the Vision MIPS helmet features an EPP foam, EPS foam puck, and polycarbonate shell, which keeps the dings and dents at bay, as well as cutting-edge MIPS (Multidirectional Impact Protection) technology. The MIPS system is designed to add protection against the rotational motion (or kinematics) transmitted to the brain from angled impacts to the head. This added protection system has been proven to reduce the rotational motion when implemented in a helmet by absorbing and redirecting energies and forces otherwise transmitted to the brain. Improved side and back coverage increase the level of protection and meets proposed UIAA requirements, while the strategically placed ventilation ports keep the air flowing when temps are high. The suspension system and chin strap keep the Vision sleek, and the integrated headlamp clips are low profile so they don't snag on over-the-shoulder slings and allow you to easily light the way on sends that push past the daylight hours.

FEATURES

Quickdraws & Carabiners

With a wide assortment of draws, lockers and standard carabiners, we cover any climbing objective, from the alpine in Alaska to the sport cliffs of Spain.

MiniWire Quickdraw NEW

Our lightest quickdraw, the Black Diamond MiniWire Quickdraw is ideal for trimming ounces on all-day gear routes and marathon sport pitches. Featuring our hot-forged MiniWire carabiners on the top and bottom as well as a lightweight 10 mm Dynex dogbone with an integrated Straitjacket insert, which keeps the bottom biner in the optimal clipping position, this draw shines on alpine missions and any climb where a light rack can make or break the crux.

FEATURES

- MiniWire carabiners on top and bottom
- Dual wiregates eliminate any chance of gate flutter
- Equipped with a 10 mm Dynex Dogbone with Straitjacket
- Available in 12 cm length

210300

Light Gray

MiniWire Quickpack NEW

A six pack of our Black Diamond MiniWire Quickdraw, our lightest in the line. Ideal for trimming ounces on all-day gear routes and marathon sport pitches, the MiniWire draw features our hot-forged MiniWire carabiners on the top and bottom as well as a lightweight 10 mm Dynex dogbone with an integrated Straitjacket insert, which keeps the bottom biner in the optimal clipping position. The MiniWire Quickdraw shines on alpine missions and any climb where a light rack can make or break the crux.

FEATURES

- MiniWire carabiners on top and bottom
- Dual wiregates eliminate any chance of gate flutter
- Equipped with a 10 mm Dynex Dogbone with Straitjacket
- Available in 12 cm length

210301

Light Gray

LiteWire Quickdraw NEW

By pairing the LiteWire carabiner's hot-forged wiregate perfection with a beefy 12cm, 12mm dogbone, we've created the ultimate workhorse quickdraw that still registers in the lightweight category. The integrated Straitjacket insert keeps the bottom biner in the optimal clipping position, making the LiteWire versatile and utilitarian—ideal for all day single-pitch cragging—while remaining light enough for multi-pitch missions that require a light rack.

FEATURES

- Hot-forged LiteWire carabiners on top and bottom
- Dual wiregates eliminate gate flutter
- Equipped with a 12 mm Dynex Dogbone
- Straitjacket insert keeps the bottom biner in the optimal clipping position
- Available in 12 cm

381128

Light Gray

LiteWire Quickpack NEW

A six pack of LiteWire draws, featuring our new LiteWire wiregate—a small, durable workhorse carabiner featuring a lightweight hot-forged construction—and a 12cm long, 12mm Dynex dogbone. The LiteWire Draw is light enough to save weight on big routes, but burly enough to withstand every day cragging abuse.

FEATURES

- Hot-forged LiteWire carabiners on top and bottom
- Dual wiregates eliminate gate flutter
- Equipped with a 12 mm Dynex Dogbone
- Straitjacket insert keeps the bottom biner in the optimal clipping position
- Available in 12 cm

381131

Light Gray

MiniWire Alpine Draw NEW

Two of our new MiniWire carabiners—the lightest in the line—and a 60 cm 8mm tubular 100% Dynex Runner in a classic alpine quickdraw configuration.

FEATURES

- Lightweight MiniWire carabiners—lightest in BD line
- 8mm, 60 cm tubular 100% Dynex Runner in an alpine quickdraw configuration
- Usable as an alpine quickdraw or a full-length sling for extending placements

381132

Light Gray

MiniWire Alpine Draw 3 Pack NEW

A three pack of our MiniWire Alpine Draw, these quickdraws are built to provide essential protection on ice, alpine and trad routes that demand a light and fast style. The Black Diamond MiniWire Alpine Quickdraw is a multi-functional biner-and-runner combo that is usable either in standard quickdraw configuration or fully extended. Featuring two new MiniWire carabiners, which are the lightest, fully-functional carabiner in the Black Diamond line-up and a 60 cm (ie. Shoulder length) 8mm tubular 100% Dynex runner that's light, abrasion-resistant and absorbs less water than nylon, the MiniWire is ideal for mountain missions when light is right.

FEATURES

- Lightweight MiniWire carabiners—lightest in BD line
- 8mm, 60 cm tubular 100% Dynex Runner in an alpine quickdraw configuration
- Usable as an alpine quickdraw or a full-length sling for extending placements

381133

Light Gray

LiveWire Quickdraw

Our high-end sport climbing quickdraw equipped with a keylock Nitron biner on top and a LiveWire carabiner with HoodWire Technology on the bottom.

FEATURES

- Hot-forged Nitron on top and LiveWire wiregate with HoodWire Technology on the bottom
- Snag-free keylock top biner for easy clipping and cleaning
- Hot-forged LiveWire wiregate with deep basket for easy clipping
- Draw-friendly carabiner surface keeps runners oriented where you want them
- Quipped with a 27 mm Vari-width Dogbone with StraitJacket™
- Available in 12 cm length

381083

Black/Envy Green

Nitron Quickdraw

Our premier full-keylock quickdraw for snag-free clipping and cleaning.

FEATURES

- Hot-forged Nitron carabiners on top and bottom
- Straight gate on top and bent gate on bottom for easy clipping
- Hot-forged gates are ergonomic and easy to use
- Dual keylocks ease clipping and cleaning
- Equipped with a 27 mm Vari-width polyester dogbone with StraitJacket™
- Available in 12 cm length

Two wiregate HotWire biners, with the bottom colored for a visual climbing target, and the durable 18 mm polyester dogbone features our Straitjacket insert that keeps the bottom biner in the optimal clipping position.

FEATURES

- Hot-forged HotWire carabiners on the top and bottom
- Colored bottom HotWire carabiner for visual target while climbing
- Dual wiregates eliminate gate flutter
- Equipped with an 18 mm polyester dogbone with Straitjacket
- Available in 12cm length

All-Around Quickdraws

HotForge Quickdraw NEW

Featuring two new HotForge carabiners—one straight gate on the top and a colored bent gate on the bottom for an added visual target—as well as a durable Polyester Dogbone, the Black Diamond HotForge Quickdraw is our top value in full keylock functionality. The light, smooth-clipping design of the HotForge carabiners, combined with a hot-forged, lighter-weight construction, eliminates snags whether you're cranking on sport routes or extending gear placements. The integrated Straitjacket insert keeps the bottom biner in the optimal clipping position.

FEATURES

- Straight gate HotForge on top and bent gate HotForge on the bottom
- Colored bottom HotWire carabiner for visual target while climbing
- Dual keylocks ease clipping and cleaning
- Equipped with an 18 mm Polyester Dogbone with Straitjacket
- Available in 12 or 16 cm lengths

381115 - 12 cm

381116 - 16 cm

Light Gray

HotForge Quickpack NEW

A six pack of our Black Diamond 12cm HotForge Quickdraws. Featuring two new HotForge carabiners—one straight gate on the top and a colored bent gate on the bottom for an added visual target—as well as a durable Polyester Dogbone, the HotForge Quickdraw is our top value in full keylock functionality. The light, smooth-clipping design of the HotForge carabiners, combined with a hot-forged, lighter-weight construction, eliminates snags whether you're cranking on sport routes or extending gear placements. The integrated Straitjacket insert keeps the bottom biner in the optimal clipping position.

FEATURES

- Straight gate HotForge on top and bent gate HotForge on the bottom
- Colored bottom HotWire carabiner for visual target while climbing
- Dual keylocks ease clipping and cleaning
- Equipped with an 18 mm Polyester Dogbone with Straitjacket
- Available in 12cm length

381122

Light Gray

HotForge Hybrid Quickpack NEW

A six pack of our new 12cm HotForge Hybrid draws, which features a new snag-free HotForge keylock carabiner on top and our redesigned lightweight, easy-clipping classic HotWire carabiner on bottom that's colored for a visual climbing target. The Black Diamond HotForge Hybrid Quickpack combines smooth clippability with wiregate functionality, and the 18 mm Polyester Dogbone is not only durable and easy to grab, but it features our Straitjacket insert to keep the bottom biner in the optimal clipping position.

FEATURES

- New HotForge on top and redesigned HotWire wiregate on the bottom
- Colored bottom HotWire carabiner for visual target while climbing
- Snag-free keylock top biner for easy bolt clipping
- Equipped with an 18 mm Polyester Dogbone with Straitjacket
- Available in 12cm length

Ultra Pink, Blue

Non-Locking Carabiners

Oval Keylock

The time-tested workhorse Oval carabiner is now new and improved, sporting our Keylock snag-free design to ensure that this classic biner remains essential for any big wall rack.

FEATURES

- Snag-free keylock design for easy clipping and unclipping
- Uniform shape prevents shifting
- Large carrying capacity
- Proven symmetrical design

210083

Polished, Black

Oval Keylock 3 Pack

A redesign of the original aid climbing carabiner—an essential part of any big wall rack.

FEATURES

- Snag-free keylock design for easy clipping and unclipping
- Uniform shape prevents shifting
- Large carrying capacity
- Proven symmetrical design

MiniWire NEW

Engineered for the light and fast climber that's counting every gram, the MiniWire is the lightest, fully-functional carabiner in the Black Diamond line-up. Perfect for minimizing weight on long trad or alpine routes, the MiniWire is durable, with a modern design, featuring a hot-forged lightweight construction, and an optimized nose geometry for easy clipping/unclipping. Go big, go MiniWire.

FEATURES

- Lightest fully-functional Black Diamond carabiner
- Hot-Forged construction
- Nose geometry allows for efficient clipping/unclipping

210235

Red, Yellow, Blue, Gray, Purple, Green, Black, Light Gray, Octane, Ultra Pink, Minted

MiniWire Rackpack NEW

Engineered for the light and fast climber that's counting every gram, the MiniWire Rackpack features six of the lightest, fully-functional carabiners in the Black Diamond line-up. Each carabiner is color-coded to match our Camalots for easy identification while racking. Perfect for minimizing weight on long trad or alpine routes, the MiniWire is durable, with a modern design, featuring a hot-forged lightweight construction, and an optimized nose geometry for easy clipping/unclipping. Go big, go MiniWire.

FEATURES

- Color-coded to match Camalots for easy identification
- Lightest fully-functional Black Diamond carabiner
- Hot-Forged construction
- Nose geometry allows for efficient clipping/unclipping

381129

LiteWire NEW

Engineered as a wiregate trad climbing machine, the LiteWire is a small workhorse carabiner featuring a hot-forged construction—allowing us to remove weight where it's not needed and add material where durability is key—and a hinge-basket that holds the sling of a Camalot or sling perfectly. A large rope bearing surface adds durability not only for the carabiner, but for your rope as well, plus we've optimized the nose geometry to allow for efficient clipping, making the LiteWire an ultra-durable wiregate just waiting to be racked.

FEATURES

- Durable workhorse ideal for trad climbing
- Hot-Forged for lighter-weight construction
- Larger rope-bearing surface for added durability
- Nose geometry allows for efficient clipping/unclipping

210234

Red, Yellow, Blue, Gray, Purple, Green, Black, Light Gray, Octane

LiteWire Rackpack NEW

Get radical with the LiteWire Rackpack, which comes with six LiteWire carabiners that are color-coded to match our Camalots for easy identification when racking. Engineered as a wiregate trad climbing machine, the LiteWire is a small workhorse carabiner featuring a hot-forged construction—allowing us to remove weight where it's not needed and add material where durability is key—and a hinge-basket that holds the sling of a Camalot or sling perfectly. A large rope bearing surface adds durability not only for the carabiner, but for your rope as well, plus we've optimized the nose geometry to allow for efficient clipping, making the LiteWire an ultra-durable wiregate just waiting to be racked.

FEATURES

- Color-coded to match Camalots for easy identification
- Durable workhorse ideal for trad climbing
- Hot-Forged for lighter-weight construction
- Larger rope-bearing surface for added durability
- Nose geometry allows for efficient clipping/unclipping

381127

OvalWire

A lighter, wiregate version of our classic Oval that won't freeze up or weigh you down.

FEATURES

- Thinner body than classic Oval
- Wiregate resists whiplash
- Proven symmetrical design
- Does not freeze up in alpine conditions
- Available in polished or black

210076

Polished, Black

HotForge Straight Gate NEW

The HotForge Straight Gate Carabiner is a modern take on our classic keylock carabiner. Purpose built for the bolt-side of quickdraws, the HotForge is the durable bolt-side carabiner we've ever built, while its straight gate makes clipping bolts nice and easy. Featuring a hot forged construction—allowing us to remove weight where it's not needed and add material where durability is key—the HotForge has a deeper basket for better clipping, while the hinge-end basket is flatter to ensure the webbing of quickdraws stays put. A larger rope bearing surface adds durability for the carabiner, while the flats on the gate reduce the likelihood of the gate opening accidentally. Finally, we've updated and optimized the nose geometry to allow for efficient clipping and unclipping from bolts.

FEATURES

- Hot Forged for lighter-weight construction
- Larger rope-bearing surface for added durability
- Nose geometry allows for efficient clipping and unclipping
- Flats on gate reduce likelihood of gate opening accidentally

210158

Black

HotForge Bent Gate NEW

The HotForge Bent Gate Carabiner is a modern take on our classic keylock carabiner and is a smooth operator designed for the rope-end of a quickdraw. Its bent gate is super easy to clip and the carabiner also has a huge rope-bearing surface for ultra-durability. Featuring a hot-forged construction—allowing us to remove weight where it's not needed and add material where durability is key—the HotForge has a deeper basket for better clipping, while the hinge-end basket is flatter to ensure the webbing of quickdraws stays put. The larger rope bearing surface adds durability not only for the carabiner, but for your rope as well, while the flats on the gate reduce the likelihood of the gate opening accidentally. Finally, we've updated and optimized the nose geometry to allow for efficient clipping and unclipping from bolts.

FEATURES

- Hot-Forged for lighter-weight construction
- Larger rope-bearing surface for added durability
- Nose geometry allows for efficient unclipping
- Flats on gate reduce likelihood of gate opening accidentally

210159

Black

HotWire Carabiner NEW

The biner that started the wiregate revolution, the new and improved Black Diamond HotWire carabiner is an integral part of any climber's rack, due to its versatility. Equally at home on either end of a quickdraw, racking cams or on alpine slings, the HotWire excels as a multi-use wire gate carabiner. With updated geometry and a hot-forged construction—allowing us to remove weight where it's not needed and add material where durability is key—the updated HotWire has a deeper basket for better clipping, while the hinge-end basket is flatter to hold the webbing of quickdraws more securely. A larger rope bearing surface adds durability not only for the carabiner, but for your rope as well. We've also optimized the nose geometry to allow for efficient rope clipping and clipping and unclipping from bolts. The HotWire is a modern classic and ideal for everything from after-work sport cragging to big-wall free climbing and long alpine ice routes.

FEATURES

- Hot-Forged for lighter-weight construction
- Larger rope-bearing surface for added durability
- Lightweight and versatile size for all-around use
- Does not freeze up in alpine conditions
- Available as a single in three colors

210157

Black, Light Gray, Octane

HotForge Screwgate NEW

A multi-functional, lightweight and compact keylock locker, the Black Diamond HotForge Screwgate carabiner features a hot-forged construction—allowing us to remove weight where it's not needed and add material where durability is key—and a low-profile, non-snagging nose that's easy to clip and clean. Ideal for use at belays, top roping or whenever you find yourself in need of a trusty locker, the HotForge accommodates a clove hitch and is built for everyday climbing missions that demand reliability and durability.

FEATURES

- Accommodates a clove hitch
- Hot-Forged for lighter-weight construction
- Keylock nose prevents snagging
- Easy-to-hold functional shape
- Screwgate sleeve
- Type B "Basic", locking connector

210161

Black, Gray

HotForge Screwgate 3 Pack NEW

A pack of three HotForge Screwgate carabiners which are a multi-functional, lightweight and compact keylock locker. The Black Diamond HotForge Screwgate features a hot-forged construction—allowing us to remove weight where it's not needed and add material where durability is key—and a low-profile, non-snagging nose that's easy to clip and clean. Ideal for use at belays, top roping or whenever you find yourself in need of a trusty locker, the HotForge accommodates a clove hitch and is built for everyday climbing missions that demand reliability and durability.

FEATURES

- Accommodates a clove hitch
- Hot-Forged for lighter-weight construction
- Keylock nose prevents snagging
- Easy-to-hold function shape
- Screwgate sleeve
- Type B "Basic", locking connector

381079

Black, Gray

LiteForge Screwgate 3 Pack NEW

The LiteForge Screwgate 3 Pack features three LiteForge carabiners, which are our ultra-light keylock screwgates built for light and fast missions. Large enough to accommodate a clove hitch and ideal for building anchors or pairing with our LINK Anchor system, the LiteForge is a dependable locker that's perfect for climbing when every gram counts.

FEATURES

- Accommodates a clove hitch
- Ideal for building anchors or pairing with LINK Anchor system
- Hot-Forged for lighter-weight construction
- Keylock nose prevents snagging
- Screwgate sleeve
- Type B "Basic", locking connector

210249

Gray

RockLock Magentron

Using the power of magnets to reinvent the auto-locking carabiner, the patented Magentron RockLock combines maximum security with ease-of-use like never before.

FEATURES

- Innovative gate design uses two magnetic arms in the gate and a steel insert in the nose for super-secure, interference-free closure
- Keylock nose prevents snagging
- Easy operation with either hand
- Square hinge end holds belay loop securely in place
- Slightly curved spine maximizes gate opening

210291

Black

RockLock Screwgate NEW

Our largest belay and rappel locker, the Black Diamond RockLock carabiner features a keylock nose, is Munter Hitch compatible and can be operated with one hand. Now featuring a hot-forged lightweight construction, a redesigned spine for better handling, and a larger rope-bearing surface for greater durability, the RockLock is the go-to screwgate for every day climbing season after season.

FEATURES

- Hot-Forged for lighter-weight construction
- Square hinge end holds belay loop securely in place
- Slightly curved spine maximizes gate opening
- Keylock nose prevents snagging
- One-hand operable
- Screwgate sleeve
- Type H or HMS connector. For dynamic belaying using a Munter Hitch or belay device.

210256

Black, Gray

LiteForge Screwgate NEW

The LiteForge is an ultra-light locking carabiner built for light and fast climbing missions. Large enough to accommodate a clove hitch and ideal for building anchors or pairing with our LINK Anchor system, the LiteForge is a dependable locker that's perfect for climbing when every gram counts.

FEATURES

- Accommodates a clove hitch
- Ideal for use with LINK Anchor system
- Hot-Forged for lighter-weight construction
- Keylock nose prevents snagging
- Screwgate sleeve
- Type B "Basic", locking connector

210248

Black, Gray

RockLock Twistlock NEW

Our largest belay and rappel locker, the Black Diamond RockLock carabiner features a keylock nose, is Munter Hitch compatible and the autolocking twistlock sleeve can be operated with one hand. Now featuring a hot-forged lightweight construction, a redesigned spine for better handling, and a larger rope-bearing surface for greater durability, the RockLock is the go-to screwgate for every day climbing season after season.

FEATURES

- Hot-Forged for lighter-weight construction
- Square hinge end holds belay loop securely in place
- Slightly curved spine maximizes gate opening
- Keylock nose prevents snagging
- One-hand operable
- Autolocking Twistlock sleeve
- Type H or HMS connector. For dynamic belaying using a Munter Hitch or belay device.

210258

Gray

Oval Keylock Screwgate

A new addition to the Oval family, this symmetrical biner riffs on the classic model, but incorporates a snag-free keylock design and adds the screwgate for locking functionality, making this an essential locking carabiner on your rack.

FEATURES

- Snag-free keylock design for easy clipping and unclipping
- Locking screwgate
- Uniform shape prevents shifting
- Large carrying capacity
- Proven symmetrical design

210084

Polished, Black

VaporLock Magnetron

Our light and versatile patented pear-shaped locking biner with the security and ease-of-use of our innovative Magnetron Technology, the Magnetron VaporLock is ideal for long free routes.

FEATURES

- Innovative gate design uses two magnetic arms in the gate and a steel insert in the nose for super-secure, interference-free closure
- Pear-shape increases friction up to 30% when lowering or rappelling with an ATC
- Munter hitch compatible on ropes up to 9.4 mm
- Keylock nose doesn't snag
- Autolocking

210293

Black

VaporLock Screwgate

A super-light pear-shaped locker for long free climbs or lightening up your rack.

FEATURES

- Increases friction up to 30% when lowering or rappelling with an ATC
- Munter Hitch compatible on ropes up to 9.4 mm
- Keylock nose prevents snagging
- Screwgate sleeve

210277

Gray

GridLock Magnetron

Using the power of magnets to reinvent the auto-locking carabiner, the GridLock Magnetron combines maximum security and ease-of-use with our innovative belay-biner design.

FEATURES

- Hot-forged construction
- Innovative patented gate design uses two magnetic arms in the gate and a steel insert in the nose for super-secure, interference-free auto closure
- Keylock nose prevents snagging
- Easy operation with either hand
- Patented, innovative design isolates belay loop to eliminate cross-loading
- I-Beam spine transitions into a rounded, large rope-bearing surface

210292

Black

GridLock Screwgate

Our revolutionary, patented belay biner design that solves the orientation issue—never deal with a shifting, cross-loaded belay carabiner again. The GridLock's isolation feature intuitively captures the belay loop and prevents cross-loading.

FEATURES

- Hot-forged construction
- I-beam spine transitions into a rounded, large rope-bearing surface
- Intuitive and easy-to-use design
- Screwgate sleeve
- Patented, innovative design isolates belay loop to eliminate cross-loading
- Isolates belay loop

210278

Gray

Mini Pearabiner Screwgate

Our versatile, all-purpose locker is small in size but rope-friendly.

FEATURES

- Large rope-bearing surface
- Keylock nose prevents snagging
- Slightly smaller than the RockLock
- Sleeve locks on biner's gate (not nose) and won't freeze up when loaded
- Screwgate sleeve

210074

Gray

13mm Dynex™ Rabbit Runner

An ultralight, full-strength, single-strand runner with two different size sewn pockets—one that's tight for carabiner stability and one that's more open for easy girth-hitching—making it super versatile for trad, ice or alpine climbing.

FEATURES

- Single-strand tested to 22kN
- Two different size sewn pockets for versatility
- 110cm (white with black)
- Certified EN 566

380054

10 mm Dynex™ Runner

Low-profile sewn runners for traditional protection.

FEATURES

- Dynex™ is highly abrasion resistant, strong and lightweight
- 10 mm wide Dynex™
- Colors specific to lengths

- 380021 - 30 cm**
- 380022 - 60 cm**
- 380023 - 120 cm**
- 380024 - 240 cm**

Red, Yellow, Blue, Gray

18 mm Nylon Runner

Sewn runners for traditional protection.

FEATURES

- Nylon webbing is versatile, strong and extremely durable
- 18 mm Nylon
- Colors specific to lengths

- 380025 - 30 cm**
- 380026 - 60 cm**
- 380027 - 120 cm**
- 380028 - 240 cm**

Red, Yellow, Blue, Gray

Vari-width Dogbone

A sewn, tapered quickdraw sling.

FEATURES

- StraitJacket™ insert keeps the bottom carabiner in optimal clipping position
- Easy to grab, yet still lightweight
- 27 mm wide polyester webbing is strong and extremely durable
- 12 cm and 16 cm lengths available

- 380062 - 12 cm**
- 380063 - 16 cm**

Standard Dogbone

A burly, workhorse dogbone ideal for everyday sport and gym draws.

FEATURES

- 18 mm Polyester construction for strong, durable performance
- StraitJacket™ insert keeps the bottom carabiner in the optimal clipping position
- 12 cm and 16 cm lengths available

- 380052 - 12 cm**
- 380053 - 16 cm**

Dynex Dogbone

Sewn webbing for specific usage and quickdraw customization.

FEATURES

- StraitJacket™ insert keeps the bottom carabiner in optimal clipping position
- Dynex™ is highly abrasion resistant, strong and lightweight

- 380034 - 12 cm - 10 mm**
- 380035 - 16 cm - 10 mm**
- 380036 - 12 cm - 12 mm**
- 380037 - 16 cm - 12 mm**

Diamond Dogbone

Our pro-grade dogbone outfitted with a burly polyester construction and a BD icon.

FEATURES

- 27 mm Vari-width polyester webbing is strong and extremely durable
- StraitJacket™ insert keeps the bottom carabiner in the optimal clipping position
- Easy to grab
- 12 cm and 16 cm lengths available

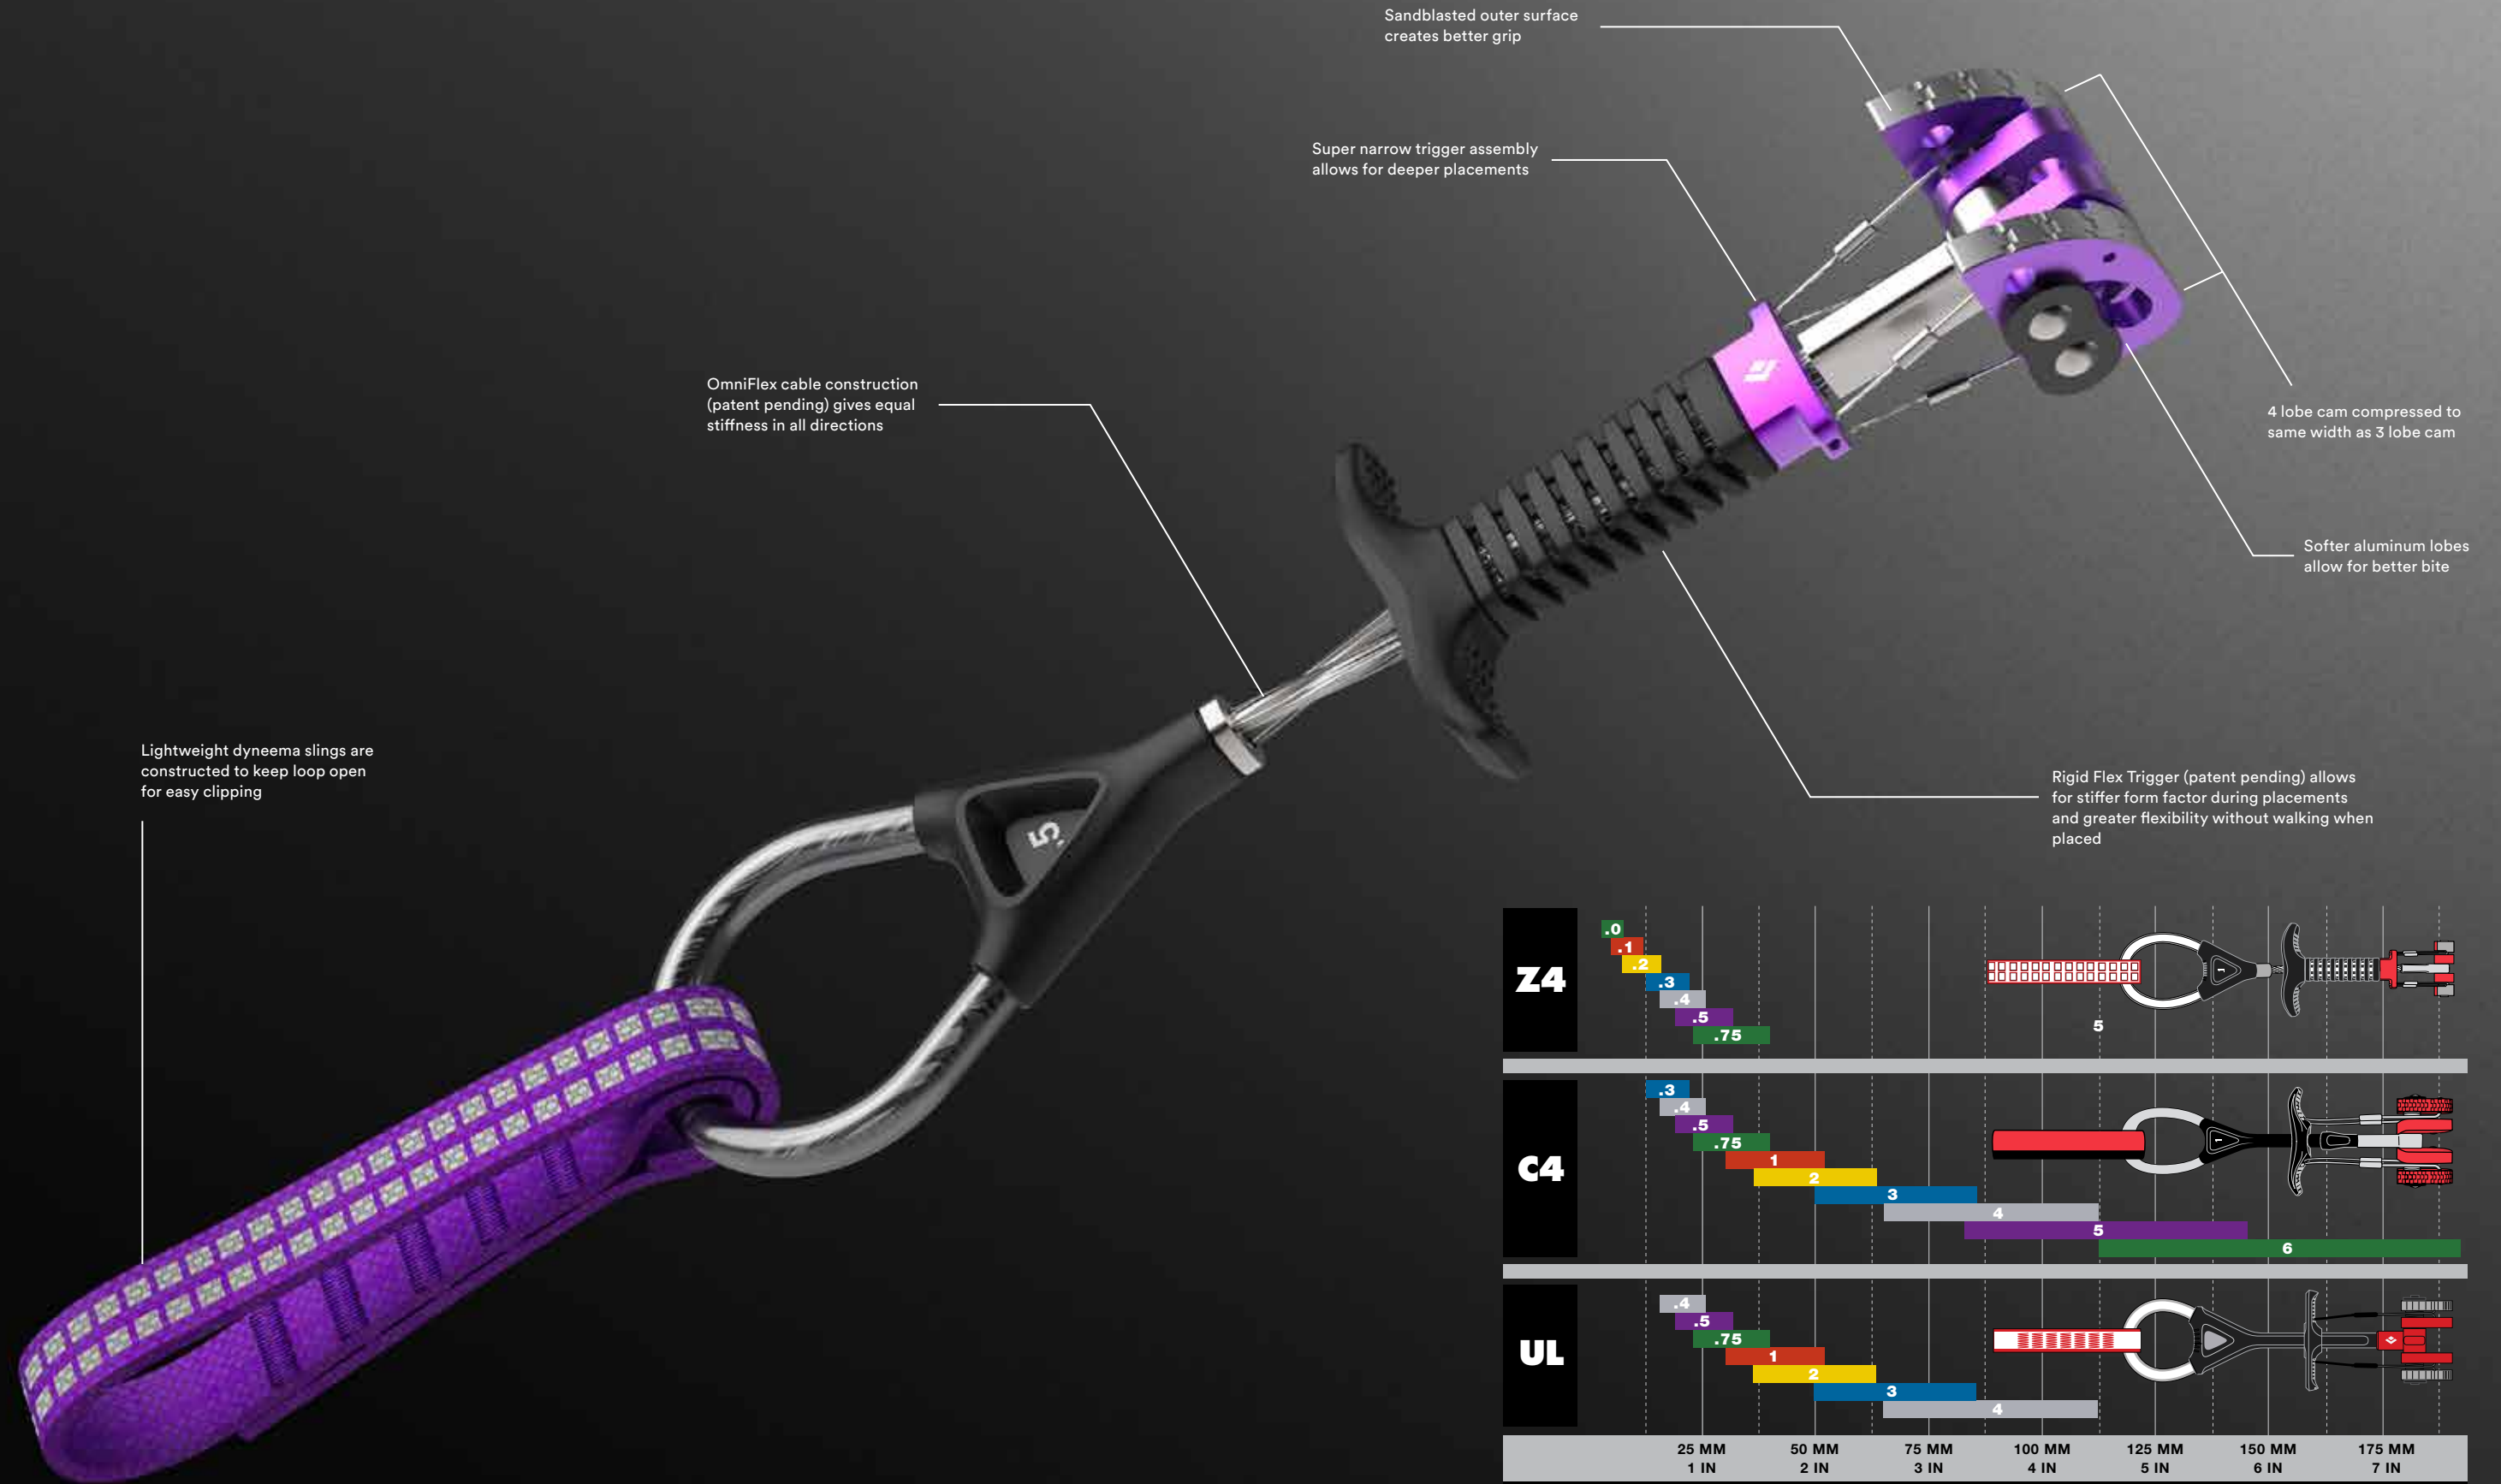

- 380094 - 12 cm**
- 380095 - 16 cm**

Protection

Climbing protection has been a hallmark of BD innovation since the days of the original Hexentric® chocks that helped spawn the clean climbing revolution in the early '70s.

Lightweight dyneema slings are constructed to keep loop open for easy clipping

OmniFlex cable construction (patent pending) gives equal stiffness in all directions

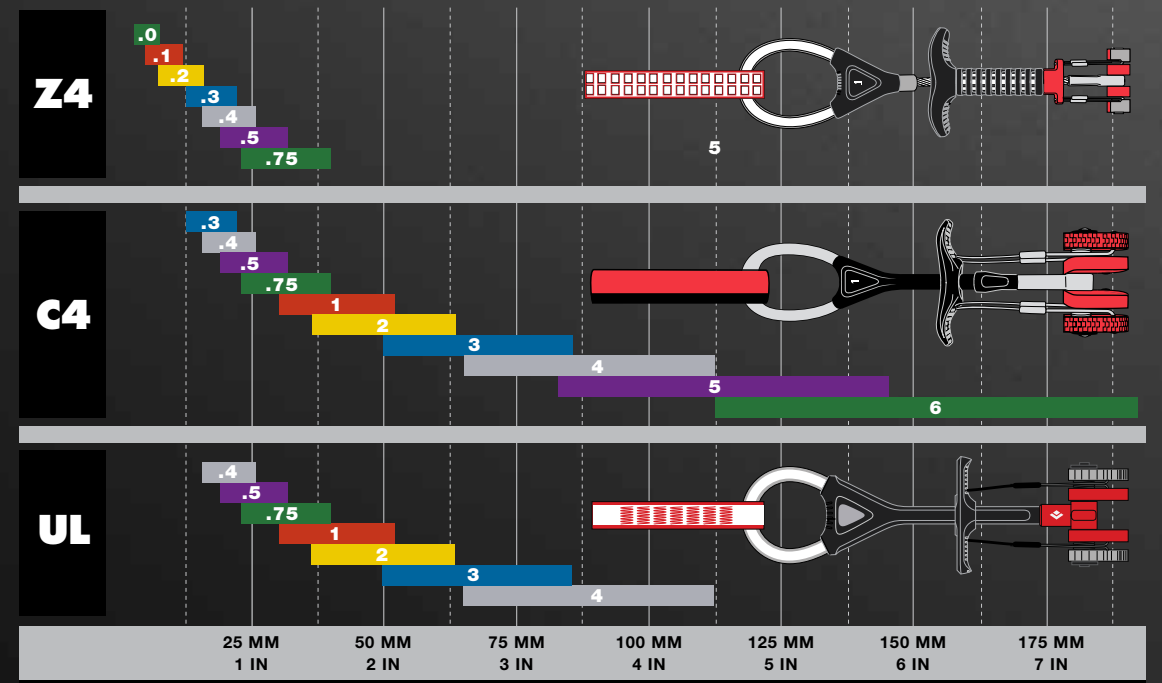

Sandblasted outer surface creates better grip

Super narrow trigger assembly allows for deeper placements

4 lobe cam compressed to same width as 3 lobe cam

Softer aluminum lobes allow for better bite

Rigid Flex Trigger (patent pending) allows for stiffer form factor during placements and greater flexibility without walking when placed

Camalot™ Z4

NEW

Born from a heart-to-heart with our top trad-climbing BD Athletes Hazel Findlay, Carlo Traversi, Sam Elias, and Babsi Zangerl, the Camalot Z4 is the realization of a dream: to have a single-stem cam that stays rigid in-hand, but flexes once placed. Behold—the patent-pending RigidFlex stem. Thanks to the independently floating trigger wires the Camalot Z4 doesn't bend while under tension and retracted, but once placed allows the stem to move, ensuring a placement that stays put and doesn't walk when pulled directionally. The stem on the larger sizes also utilizes dual twisted cable construction which provides uniform flex in all directions, while single cable construction is implemented on smaller sizes to avoid buckling when pulling hard on the trigger and to reduce trigger profile. Featuring a similar head-width as our old Camalot C3 design, but with 4 lobes that are sandblasted for better holding power, the Z4's are not only an upgrade, but are also available in smaller sizes—starting from #0, our smallest cam ever made, and ranging to .75, allowing you to dial in the rack, whether you're gunning for a tips crack in the desert, or going light and fast in the Bugs.

FEATURES

- RigidFlex Trigger (patent pending) stem stays rigid in-hand for easy placement, but flexes once placed to reduce walking
- OmniFlex cable construction (patent pending) for uniform flex on larger sizes; single cable construction on smaller sizes to avoid buckling and reduce trigger profile
- Narrow head width for tight placements
- Sandblasted lobes for better holding power
- Lightweight yet durable Dynex sling with a unique color scheme for easy identification from other Camalots

- 262241 - 0 - Green
- 262242 - .1 - Red
- 262243 - .2 - Yellow
- 262244 - .3 - Blue
- 262245 - .4 - Gray
- 262246 - .5 - Purple
- 262247 - .75 - Green

Camalot™ Z4 Offset NEW

The new standard when it comes to offset single-stem cams, the Camalot™ Z4 Offsets feature our game-changing RigidFlex stem design, which as the name implies, stays rigid while placing them, yet flexes when you climb past, ensuring easy handling and less walking for a solid placement you can rely on. These offset lobe design ensures that you always have the right piece for pin scars and non-uniform placements.

FEATURES

- RigidFlex stem stays rigid in-hand for easy placement, but flexes once placed to reduce walking
- Dual twisted cable construction for uniform flex on larger sizes; single cable construction on smaller sizes to avoid buckling and reduce trigger profile
- Narrow head width for tight placements
- Sandblasted lobes for better holding power
- Lightweight yet durable Dynex sling with a unique color scheme for easy identification from other Camalots

 262252 - .6-.75 - purple/green

Camalot™ Ultralight

At 15% lighter than our redesigned Camalot C4's, the Camalot Ultralight is a breakthrough for fast-and-light-missions.

FEATURES

- Sandblasted lobes for better holding power
- Double-axle design offers widest range for each cam unit
- Dyneema core stem design is strong, durable and low-profile
- 14mm dyneema tape sling
- Ergonomically optimized stem and thumb loop for surgically precise placements
- Color-coded for easy identification
- Optimized cam lobes to reduce weight

**All Protection UIAA and CE Certified (except for Nut Tool)

Camalot™ C4

That's right. We've done it again. The redesigned Camalot™ C4 is now 10% lighter, these bad boys have eclipsed our classic, cornerstone cams, and feature a more modern design that gives climbers everything they love about the old Camalots but add new touch-points like a wider trigger for easier handling, and our innovative trigger keeper for compact racking with sizes #4, #5 and #6.

FEATURES

- New design is 10% lighter
- Lighter sculpted lobes optimized for strength to weight
- Innovative trigger keeper on sizes #4, #5 and #6 for compact racking
- Slings are updated visually for easier differentiation when racking
- Double-axle design offers widest range for each cam unit
- C-Loop continuous cable stem design is strong and durable
- Color-coded for easy identification and wide range of sizes
- LiteWire or MiniWire Rackpacks available for easy racking (see Carabiner section)

Offset Stopper Set #7-11

The Black Diamond Offset Stoppers add versatility to your rack by utilizing offset geometry for pin scars or irregular cracks while free climbing or aid climbing.

FEATURES

- Durable aluminum heads and steel cables
- Offset Geometry excels in pin scars and irregular cracks
- Color coded for quick and easy placement
- Available individually or as a set
- Racked on a carabiner

225235

Offset Stopper

Individually hot forged and ideal for placements in pin scars and flared cracks, the Offset Stopper is a variation on our classic stopper.

FEATURES

- Aluminum construction with a steel cable
- Individually hot forged
- Sizes 7-11

- 225227 - #7 - Red
- 225228 - #8 - Yellow
- 225229 - #9 - Blue
- 225230 - #10 - Gray
- 225231 - #11 - Purple

Stopper Set Pro #1-13

Stoppers No. 1-13 racked on a carabiner.

FEATURES

- Durable aluminum nuts and steel cables
- Transverse taper is versatile in flares, constrictions and parallel cracks
- Rounded edges for easy cleaning (smaller sizes are straight for better surface contact)
- *Sizes 1 and 2 are for direct aid only

225122

Stopper Set Classic #5-11

Stoppers No. 5-11 racked on a carabiner.

FEATURES

- Durable aluminum nuts and steel cables
- Transverse taper is versatile in flares, constrictions, and parallel cracks
- Rounded edges for easy cleaning (smaller sizes are straight for better surface contact)

225123

Stopper Set #4-13

Stoppers No. 4-13 racked on a carabiner.

FEATURES

- Durable aluminum nuts and steel cables
- Transverse taper is versatile in flares, constrictions and parallel cracks
- Rounded edges for easy cleaning (smaller sizes are straight for better surface contact)

225215

Not available in EU

Stoppers

Time-tested passive pro—a direct link to the original chocks that started the clean climbing revolution.

FEATURES

- Durable aluminum nuts and steel cables
- Transverse taper is versatile in flares, constrictions and parallel cracks
- Rounded edges for easy cleaning (smaller sizes are straight for better surface contact)
- *Sizes 1 and 2 are for direct aid only

- 225201 - #1 - Red

Wiregate Nut Tool

A wiregate take on our classic nut tool, crucial for any rack.

FEATURES

- Wiregate
- Machined windows
- Rounded heel

620062

Wired Hexentric Nut Set #4-10

Wired Hexes No. 4-10 racked on a carabiner.

FEATURES

- Wide range of placements in all climbing conditions
- 6061 T-6 aluminum with swaged cables

220235

Nut Tool

This trad climber's staple is a lightweight tool for cleaning passive pro.

FEATURES

- Lightweight, chromoly steel

620060

Belay & Rappel

We continue to design and innovate lightweight, dependable belay and rappel solutions, which is why BD devices have remained essential tools for every climber.

ATC-Alpine Guide

The ATC-Alpine Guide is an ultralight, more compact version of our award-winning ATC-Guide, optimized for smaller rope diameters and designed for fast and light alpine missions.

FEATURES

- Ultralight and compact at 73 grams
- Multiple friction modes for belay and rappel
- Auto-block release hole accepts small carabiners
- Durable cable holds its shape and resists getting caught up between ropes
- Guide mode works with one or two climbers
- Dependable and smooth operation in all conditions, handling ropes from 6.9 to 9mm

620047

Envy Green

Belay & Rappel

ATC-Guide

Our most versatile belay/rappel device, now 10% lighter with improved feeding and pulling in guide mode.

FEATURES

- Multiple friction modes for belay and rappel
- Updated construction makes the device 10% lighter with improved rope handling. Now 80g
- Auto-block release hole accepts small carabiners
- Durable cable holds its shape and resists getting caught up between ropes
- Guide mode works with one or two climbers
- Dependable and smooth operation in all conditions, handling ropes from 8.1 to 11 mm

620046

Anthracite, Black

Belay & Rappel

ATC-XP

With multiple friction modes, the ATC-XP belay/rappel device is 30% lighter than the original with machined windows through the body.

FEATURES

- High-friction mode offers 3 times greater hold and stopping power than regular friction mode
- Machined windows through device for weight savings
- Durable cable holds its shape and resists getting caught up between ropes
- Versatile design accepts ropes from 7.7 to 11 mm
- Available for order by individual color

620075

Black, Blue

ATC-Pilot

A single-rope, geometry-assisted belay device with enhanced braking, the ATC Pilot introduces a system that provides an added level of security to your belay, while allowing for smooth rope payout.

FEATURES

- Accommodates ropes from 8.7-10.5mm
- Provides an added level of security to single pitch belays
- Smooth rope payout
- Controlled lowering
- Steel construction
- Ergonomic, non-slip surface
- Single rope use

620078

Black

ATC

Our classic and often-imitated lightweight belay/rappel device.

FEATURES

- Unique, smooth-handling geometry
- Minimalist design is durable in all conditions
- Large surface area dissipates heat when lowering or rappelling
- Handles ropes from 7.7 to 11 mm
- Available for order by individual color

620073

Black, Purple

Big Air Pilot Package

The ATC Pilot Package combines the added security of the ATC Pilot with the strength and durability of a GridLock carabiner.

FEATURES

- ATC Pilot
- GridLock Carabiner

620084

Black

Big Air XP Package

An essential belay/rappel package, featuring the ATC-XP. Package includes belay device and locking carabiner.

FEATURES

- ATC-XP belay/rappel device
- Screwgate carabiner
- High friction mode on ATC-XP offers 3 times greater hold and stopping power than regular friction mode

620083

Dark Gray/Blue

Super 8

Fast and easy loading, the Black Diamond Super 8 belay/rappel device uses a unique design that eliminates excess material by thinning out the non-rope bearing areas. Sold in assorted colors.

FEATURES

- Modern 8 design for smooth handling
- Ideal for the retro climber or Search and Rescue professional
- Works well with double 8.1 mm ropes up to 11 mm single lines

620072

Black, Yellow

Transition

Full-fingered, lightweight leather glove with breathable stretch fabric, designed for multi-sport action.

FEATURES

- Goat leather and abrasion-resistant woven nylon with four-way stretch
- Leather knuckle and palm patches
- Hook-and-loop cuff closure
- CE certified to EN 420 and EN 388
- Size: XS-XL

801849

Stone

A ¾-finger leather glove for dexterity-crucial climbing activities such as belaying, aid climbing and jugging.

FEATURES

- Goat leather
- Reinforced leather palm and knuckle patches
- Hook-and-loop cuff closure
- CE certified to EN 420 and EN 388
- Size: XS-XL

801848

Crag Glove

A lightweight, breathable cragging glove for belaying and via ferrata, the Black Diamond Crag Gloves protect your hands without compromising dexterity. Now featuring an updated finger construction for improved durability, and a sleek, low-profile modern Velcro wrist strap, the Crag provides a firm grip, comfortable fit, and now comes in two women's specific colors.

FEATURES

- Available in women's specific sizes and colors
- Breathable stretch mesh fabric and knuckle padding
- Synthetic leather palm and fingers with reinforced index finger and thumb crotch for durability
- Hook-and-loop cuff closure with pull-on/clip-in loop
- CE certified to EN 420 and EN 388 (2131)

Men's - 801863 - Black, Astral Blue

Women's - 801866 - Bordeaux, Raging Sea

Crag 1/2 Finger

A lightweight, breathable cragging glove for belaying and via ferrata, the Black Diamond ½ finger Crag Gloves protect your hands without compromising dexterity. Now featuring an updated finger construction for improved durability, and a sleek, low-profile modern Velcro wrist strap, the Crag provides a firm grip, comfortable fit, and now comes in two women's specific colors.

FEATURES

- Available in women's specific sizes and colors
- Breathable stretch mesh fabric and knuckle padding
- Synthetic leather palm and fingers with reinforced index finger and thumb crotch for durability
- Hook-and-loop cuff closure with pull-on/clip-in loop
- CE certified to EN 420 and EN 388 (2131)

Men's - 801864 - Black, Astral Blue

Women's - 801868 - Bordeaux, Raging Sea

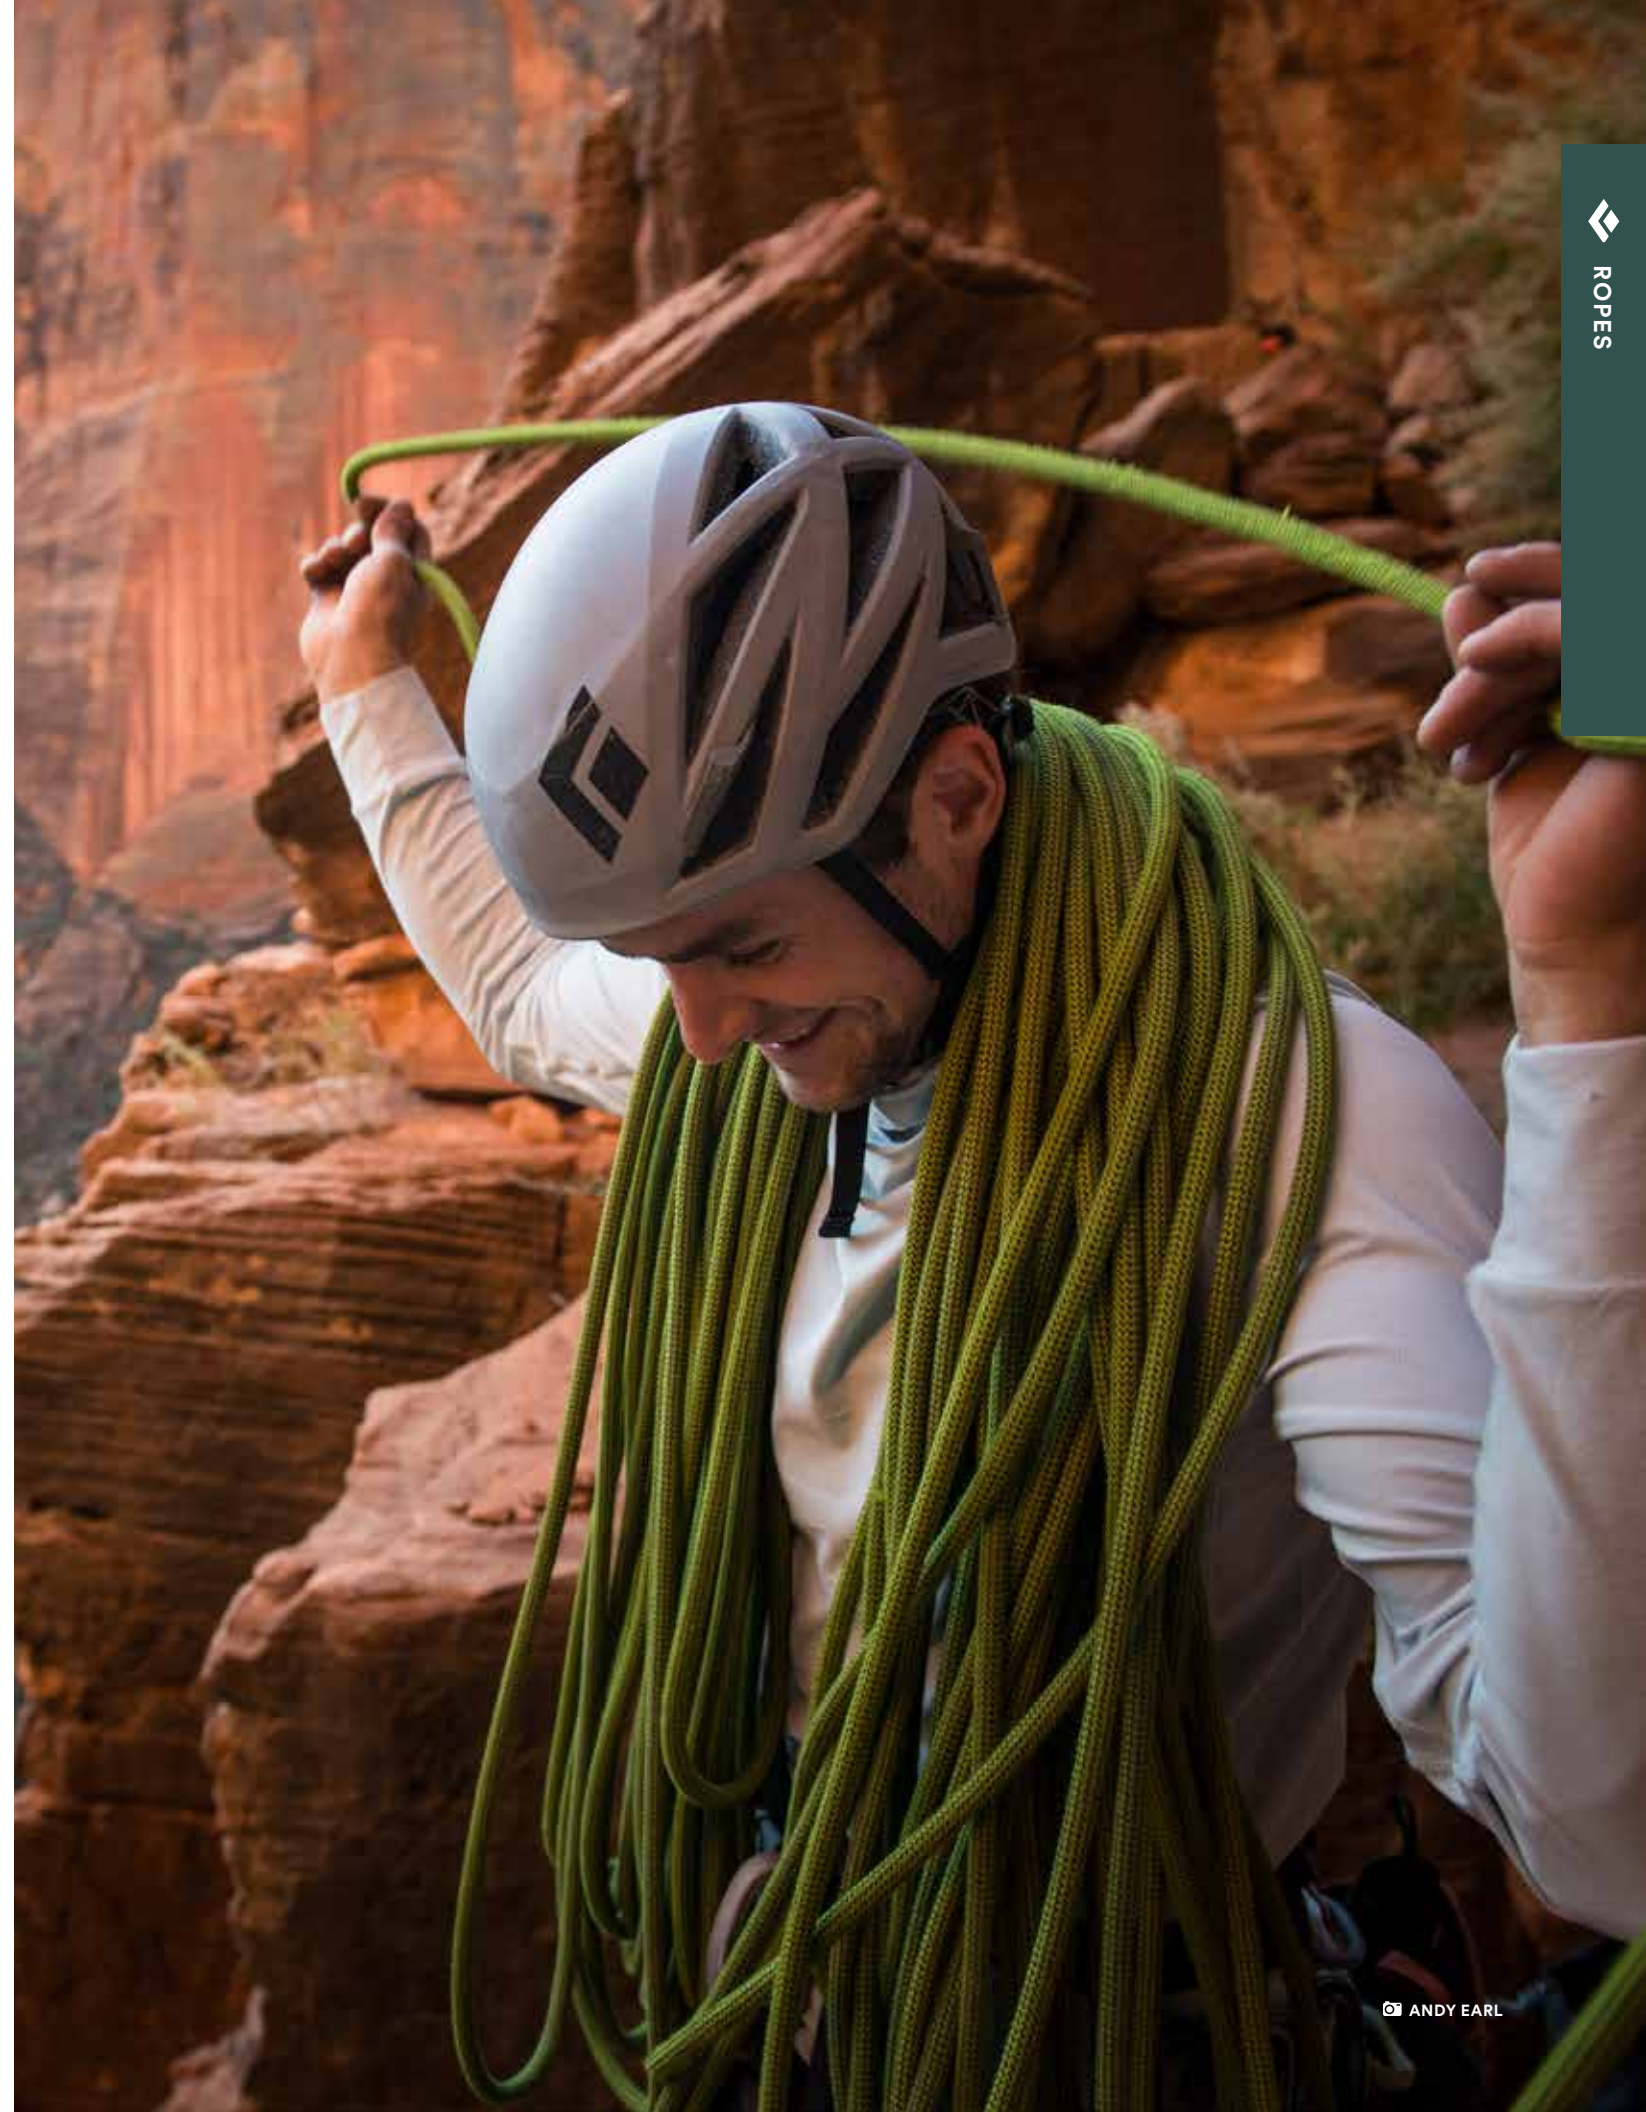

Ropes

By balancing durability with smooth handling, we've created a premium line of ropes that can take you from the gym all the way into the alpine.

7.0 Dry

The ultimate, ultralight twin rope for fast and light mountain missions, the Black Diamond 7.0 is a certified twin rope designed to be used in pairs for ice climbing or alpine climbing. Featuring a dry treatment and a durable 2X2 sheath, the 7.0 is built for the mountains.

FEATURES

- Dry Performance—With a core and sheath that are dry treated, our dry treated ropes are protected against weather from the inside out
- 2X2 Woven Sheath—Utilizing a 2X2 weave construction, our standard sheath is built to withstand everyday use
- Durability and Handling Balance—Purpose-built to balance both durability and great handling, our ropes are not too stiff and not too soft, giving you a great feeling rope that knots easily, feeds through your belay device with ease, yet holds up to a barrage of use
- Half/twin ropes must be used in pairs. Do not use as a single rope
- Climb Ready coiled

Bouldering

Whether you're scouring the forest for new projects or calling in favors for some pad-posse highballing, our bouldering pads are essential components for the blocs.

Bouldering

Circuit NEW

The new addition to our long lineage of BD bouldering pads, the Circuit Crash Pad is engineered as a daily workhorse for the cost-conscious boulderer, featuring our closed-cell PE foam layup with EVA bonded together, making it lightweight but solid for impact protection. The suspension system is comfortable, with shoulder straps, a waistbelt and two side handles, and the hinge-style fold makes the Circuit easy to transport. The Circuit's square corners make for better coverage when paired with other pads, while easy-hook metal buckles with a three-strap closure system close it all up in a compact package that's available in two colors—one being women's specific.

FEATURES

- Closed-cell PE foam layup bonded to high compression PU foam
- Easy hook metal buckles with 3 strap closure system
- PU coated 900D Nylon
- Hinge style fold for easy transport – making this a compact pad
- Square corners for better coverage when paired with other pads

550812

Black-Lemon Grass, Black-Ultra Pink

Bouldering

Impact

Our simple, all-around pad for day-to-day use is now updated with improved buckles, a new suspension system for better transport and square corners for optimal coverage when pairing with other pads.

FEATURES

- Improved easy-hooking buckles on clean, three-strap closure
- Updated suspension for better transport with shoulder straps, waistbelt and two side grab handles
- Closed-cell PE foam layup on top, high-compression PU foam on bottom
- Hinge-style fold for compact and easy transport
- PU-coated 600d ripstop polyester on top, sides and bottom for abrasion and water resistance

550818 - 100x114x10 cm

Tri-Green

Drop Zone

Our redesigned, do-it-all Drop Zone now has improved buckles for durability and ease of use, a new suspension system for better transport, redesigned square corners for better coverage when paired with other pads, and updated graphics, while maintaining its premium foam layup, taco-fold design and elastic flap for storing your shoes, chalk and essentials.

FEATURES

- Closed-cell PE foam layup on top, high-compression PU foam on bottom
- Taco-style fold for a continuous landing surface
- Improved buckles on quick-closure elastic mesh flap, which stores gear inside the pad
- Updated suspension for better transport with shoulder straps, waistbelt and two side grab handles
- PU-coated 1000d Nylon on top, sides and bottom for abrasion and water resistance

550808 - 104x122x9 cm

Tri-Blue

Mondo

The redesigned Mondo Pad features improved buckles that are more durable and easier to use, a new suspension system that adds comfort while carrying, and new squared corners that provide optimal coverage when paired with other pads—ensuring that the Mondo remains king of highball bouldering pads.

FEATURES

- Clean, three-strap closure with improved buckles
- New suspension system for better transport
- Closed-cell PE foam layup on top, high-compression PU foam on bottom
- Hinge-style fold for compact and easy transport
- Padded shoulder straps and waistbelt
- Four corner grab handles and two shoulder webbings for easy pad shuffling
- PU-coated 1000d Nylon on top, the sides, and harness-side of bottom for abrasion and water resistance
- Rubber coated bottom fabric on non-harness side for better grip on slippery surfaces

550803 - 112x165x12.5 cm

Tri-Red

Climbing Accessories

From chalk bags to bouldering brushes, our collection of climbing essentials features all the necessary additions to round out your climbing kit.

Gym Chalk Bag

Designed with the gym climber in mind, the Gym Chalk Bag has an integrated, refillable chalk ball, a slot for your lead cert tag, a brush holder and can clip directly to your harness.

FEATURES

- Integrated, refillable chalk ball
- Comes with chalk bag belt and can clip directly to your harness
- Slot for lead certification tag
- Brush holder

Repo

Built with repurposed fabric scraps from our sewing factory, the redesigned Repo now sports a modern, tapered shape, improved closure system, and higher quality fabric to provide a unique, upcycled style.

FEATURES

- Modern, tapered shape with pliable wire rim is made from repurposed materials
- Fleece-lined interior with cinching cord-lock closure
- Brush holder
- Webbing belt with quick-release buckle
- S/M: Ocean and Light Gray
- M/L: Red, Dark Gray, and Black Forest

630156

Black Forest, Dark Gray, Light Gray, Ocean, Red

Freerider

This chalk bag is one of two pieces of equipment used by BD Athlete Alex Honnold on his historic free solo ascent of El Capitan's Freerider (IV 5.13). Featuring Honnold's signature and our time-tested design, a percentage of sales from the Freerider goes to the Honnold Foundation, which supports solar energy for a more equitable world.

FEATURES

- Featuring Honnold's signature and the exact colors of his old "Freerider" bag
- Classic cylinder shape with pliable wire rim is made from repurposed materials
- Fleece-lined interior with cinching cord-lock closure
- Brush holder
- Webbing belt with quick-release buckle
- Percentage of sales goes to Honnold Foundation

630157

Verde

Mojo Kid's

Designed with the size of a child's hand in mind, the Mojo Kid's is perfect for the pint-sized crusher.

FEATURES

- Kid's-specific design
- Ages 0-10

630119

Macaw

Creek Chalk Bag

Designed in the likeness of our Creek Series, the Creek Chalk Bag is durable and burly, ready to take on the splitters of its namesake.

FEATURES

- Heavy duty Creek fabric
- Hipbelt with metal closure
- Chalk brush holder
- Zippered bottom pouch
- Ergonomic shape for chalk reachability

630153

Black

Mondo Chalk Pot

For serious sessions in the blocs, the Mondo Chalk Pot is the stable, cavernous solution for projects that require high friction.

FEATURES

- Stable, upright design
- Magnetic closure
- Roll top and seal
- Zippered pocket
- Brush pockets

630145

Engineered Chalk

Upsalite

/əpSAlɪt/

noun

1. An anhydrous form of magnesium carbonate that absorbs 10 times more moisture than other compounds, BD's revolutionary Upsalite chalk is scientifically engineered to enhance your grip. White Gold + Pure Gold = Black Gold.

Pure Gold

Consider Pure Gold your secret sauce. Featuring concentrated Upsalite—a new scientifically engineered form of magnesium carbonate that absorbs 10 times more moisture than your standard chalk—Pure Gold effectively enhances your grip. Trust us, take the boost.

FEATURES

- Pure Gold absorbs 10 times more moisture than your standard chalk
- Scientifically engineered to enhance your grip
- Pure Gold can be mixed with other chalk
- Comes in single serving - perfect for adding to any chalk bag's worth of chalk

- 550487 - 1g
- 550485 - 5g
- 550486 - 10g

Black Gold

A premium blend of our new scientifically engineered chalk, Black Gold contains 10% Pure Gold, which is a super porous form of magnesium carbonate containing Upsalite. Black Gold absorbs twice the moisture than other compounds.

FEATURES

- Absorbs twice the moisture than regular chalk
- Scientifically engineered to enhance your grip

- 550481 - 30g
- 550482 - 100g
- 550483 - 200g
- 550484 - 300g

White Gold

Uncut chalk specifically blended for climbing.

FEATURES

- Improves grip for better climbing performance
- Available loose and in chalk shots, which are magnesium carbonate-filled mesh balls that keep mess to a minimum

- 550499 - 56 g Chalk
- 550502 - 100 g Loose Chalk
- 550503 - 200 g Loose Chalk
- 550495 - 300 g Loose Chalk
- 550504 - Non-refillable Chalk Shot
- 550498 - Refillable Chalk Shot

550493 - Liquid White Gold

A performance-enhancing alternative to dry chalk.

FEATURES

- No mess, non-toxic coating keeps hands dry and improves grip
- Dust-free composition ideal for redpoints, humid conditions or indoor gyms

Climbing Packs

Built with sleek, streamlined designs, and intelligent feature sets, our packs allow for maximum comfort and true freedom of movement.

Mission

Our durable top-loading alpine pack engineered for everything from summer alpine cragging to gear-intensive winter expeditions, the Mission gets your gear to the base in comfort. With four sizes, the Mission is capable of taking on any expedition.

FEATURES

- SwingArm™ shoulder straps and thermoformed backpanel
- Top-loading, with removable lid, drawcord skirt closure and tuck-away rope strap
- Ice-tool PickPockets™ and crampon pouch
- Strippable design: removable hipbelt with fixed webbing belt and removable framesheet
- Hydration compatible

681188 - 35L, 681187 - 45L,
681186 - 55L, 681185 - 75L

Cobalt/Black

Speed

Our time-tested on-route alpine pack for light, alpine-style ascents on rock, snow or ice, the Speed is streamlined, strippable and designed to move with you. Featuring four sizes, the Speed offers the versatility you need for any mountain mission.

FEATURES

- Redesigned shoulder straps and thermoformed backpanel
- Top-loading, with removable lid, drawcord skirt closure and tuck-away rope strap
- Micro ice tool Pick Pockets™ and removable 20 mm crampon straps
- Strippable design: removable hipbelt with fixed webbing belt, removable framesheet, and removable foam bivy pad
- Hydration compatible

681179 - 22L, 681178 - 30L,
681177 - 40L, 681176 - 50L

Sulfur, Graphite

Speed Zip

A zippered clamshell version of our proven Speed pack, the Speed Zip is a lightweight technical pack for on-route performance on rock, snow or ice.

FEATURES

- Redesigned shoulder straps and thermoformed backpanel
- Zippered clamshell top opening with zippered top pocket and tuck-away rope strap
- Micro ice-tool PickPockets™ and removable 20 mm crampon straps
- Strippable design: removable hipbelt with fixed webbing belt, removable framesheet and removable foam bivy pad
- Hydration compatible

681183 - 24L
681181 - 33L

Graphite, Octane

Blitz

The ultimate on-route pack for alpine assaults, with essential, lightweight features that will take you from base to summit and back.

FEATURES

- Ultralight Dynex ripstop construction
- One-handed top closure
- Easily accessible, waterproof zip pocket on lid
- Strippable design
- Rope strap
- Ice tool Pick Pockets™
- Hydration compatibility
- Internal zippered pocket
- Removable bivy pad

681194 - 20L
681195 - 28L

Gray

Rock Blitz 15 Backpack

The Rock Blitz 15 is built for the send. Designed as an on-route, multi-pitch pack, the Rock Blitz has the features you need to carry essentials on big lines, with easy, on-the-rock access, and a stripped-down profile for moving over stone.

FEATURES

- Blitz-style main opening for ease of access while on route
- External side zip pocket for quick access to guide book / phone / camera
- Stripped down pack silhouette for moving fast on multi-pitch missions
- Top strap also doubles as rope carry
- External H2O hose routing
- EVA Padded shoulder straps and back panel
- Height adjustable waist belt for better fit above a climbing harness
- Fully removable sternum strap and waist belt to shave weight when necessary

681189

Black, Alloy, Red Oxide

Bullet 16

The quintessential on-route pack, the Bullet 16 is tough enough to be hauled through chimneys and streamlined enough to not interfere with the crux lead.

FEATURES

- External zippered pocket
- Internal mesh zippered pocket
- Easy-to-remove 20 mm webbing hipbelt
- Hydration hose port
- Removable foam backpanel
- Tuckable shoulder straps and webbing hipbelt

681156

Adriatic, Nickel, Black

Crag 40

A sleek, 40-liter climbing pack that does it all and does it well, the Crag 40 is a top-loader inspired pack that also zips wide open like a duffel for easy access to your gear, making it the essential, go-to cragging pack.

FEATURES

- Top loading design with drawcord skirt closure
- Full length zipper access
- External zippered front pocket and internal organizer pocket
- Integrated rope strap

681169

Black, Nickel

Creek Series - 35L & 50L

A cavernous top-loader ideal for gear-intensive cragging sessions, the Creek packs are inspired by our haul bags and built with easy access and unparalleled durability in mind. Featuring two sizes, the Creek can handle any mission you take on.

FEATURES

- Durable, waterproof haul-bag fabric
- Padded shoulder straps and dual-density hip belt, thermoformed backpanel
- Top-loading design with drawcord skirt closure
- Creek 50 and 35 have full-length side zipper for easy access to pack contents
- Tuck-away rope strap and stowable rain hood that doubles as a helmet/rope holder
- Zippered front flap with internal zippered organizer pockets
- Haul bag-style bottom keeps pack standing upright for easy loading

681174 - 35L, 681160 - 50L

Black

Stone Duffel 42

A clean and simple duffel-style cragging pack that zips wide open for easy access, the Stone 42 Duffel also includes a removable rope tarp to keep your cord out of the dirt.

FEATURES

- Lightweight framesheet with foam backpanel for comfort
- Tuck-away padded shoulder straps and webbing hipbelt
- Full-length zipper access
- Two internal zippered organizer pockets
- Includes a removable 1.2 x 1.5 m rope tarp

681158

Nickel, Black

Stone 45

A streamlined climbing rucksack for day-in/day-out cragging performance, the Stone 45 Pack provides hassle-free access and a super-comfortable carry.

FEATURES

- Top-loading design with drawcord skirt closure and full-length side zipper for easy access to pack contents
- Removable floating top lid and tuck-away rope strap
- Padded shoulder straps and removable padded waistbelt
- Tuck-away ice-axe loop and top compressions straps

681157

Black, Nickel

Creek 20 Pack

A simple, burly on-route pack inspired by our haulbags, the Black Diamond Creek 20 provides durable protection for your essentials, whether you're carrying or hauling. The top-loading design features a drawcord skirt and an integrated, stowable rope strap, while an internal zippered pocket stores your phone, route topo or bars. When it's time to deal with the crux or a thrasher chimney pitch, stow the shoulder straps, remove the waistbelt and haul away.

FEATURES

- Durable, waterproof haul-bag fabric
- Padded shoulder straps
- Top-loading design with drawcord skirt closure
- Tuck-away rope strap
- Haul bag-style bottom keeps pack standing upright for easy loading

681175

Black

Pipe Dream 45

Purpose built for the crag, the Pipe Dream 45 Pack carries your entire kit, gives you a place to spread out your gear and provides a comfortable spot to chill between burns.

FEATURES

- Padded shoulder straps and waistbelt
- Three-point closure system for easy and secure volume adjustment
- Removable lid
- Zippered top pocket
- Zippered internal pocket with key clip
- Two internal gear loops

681159

Black

Gym 35

The durable, heavy projecting gym bag that carries your cord, shoes, harness and belay glasses.

FEATURES

- Separate elastic gear pocket
- Zippered essentials pocket
- One-handed closure system
- Padded shoulder strap

630148

Black

Gym 30

The ultimate gym bag, big enough for the essentials for everyday gym sessions.

FEATURES

- Separate elastic gear pocket
- Zippered essentials pocket
- One-handed closure system
- Padded shoulder strap

630147

Gray, Repo

Big Wall

Big wall gear has been at the foundation of our company since day one—ranging from the classic piton shapes to portaedges, aiders, ascenders and haul bags.

Single Portaledge Cliff Cabana Double Portaledge

Single or Double—Black Diamond builds durable, reliable, single-point suspension ledges.

FEATURES

- Precise engineering for strength, durability and easy set-up and adjustment
- Frame is built from double-butted 6061 T-6 45 mm machined and anodized aluminum
- Four pull straps tighten the floor
- Six-point buckle system for easy leveling
- Double ripstop 210D nylon ballistics

810450

810451

Gray

Deluxe Single Fly Deluxe Cliff Cabana Double Fly

Full storm protection for extreme wall conditions.

FEATURES

- Taped seams and reinforcements on wall side
- Sewn-in windows
- Labeled, RF-welded clip-in point
- Poles easily slide into the built-in guides for speedy set up
- Awning with a moldable copper wire in the brim provides maximum ventilation
- Four reinforced corner tie downs for securing the ledge in high winds

810457

810458

Zion Haul Bag

The largest of the BD haul bags. For Grade VI and big wall expedition use.

FEATURES

- Tough vinyl-laminated nylon fabric
- Tuck-away EVA foam padded straps and hipbelt
- Built-in belay seat and double-walled skirt

810280

Big Wall Gray

Touchstone Haul Bag

Mid-size haul bag for two-day trips.

FEATURES

- Tough vinyl-laminated nylon fabric
- Tuck-away straps and padded hipbelt
- Double-walled skirt

810275

Big Wall Gray

Stubby Haul Bag

Smallest of the BD haul bags. For done-in-a-day routes or use as a secondary haul bag.

FEATURES

- Tough vinyl-laminated nylon fabric
- Tuck-away straps and removable padded hipbelt
- Zippered pocket and double-walled skirt

810270

Big Wall Gray

Index

Pushing the evolution of ascenders, the Index allows trigger-finger access to help you manipulate the cam for easier operation low on a pitch or during hard- to-clean traverses. The dual-density grip and trigger increase comfort for long days on the wall, and a large clip-in hole lets locking carabiners rotate 360 degrees for easy rigging.

FEATURES

- Trigger-finger access for easy operation
- Dual-density grip and trigger for increased comfort in all conditions
- Large carabiner clip-in hole
- Left- and right-handed versions

620003 - Right - Anthracite

620004 - Left - BD Orange

Rotor

Clean, reliable design for easy hauling.

FEATURES

- Enclosed bearing for smooth operation
- Clip-ins accommodate up to three carabiners
- Rated to 26 kN/5,845 lbf

620005

Black/BD Orange

Pulley

A helpful big wall item for the long haul.

FEATURES

- Self-lubricating
- Aluminum alloy
- Rated to 17 kN/3,822 lbf

620020

Cliffhanger

Hook for small to medium edges.

FEATURES

- Chiseled point and flat tip for stability
- Bipod base to reduce rotation

520220

Grappling Hook

Hook for larger edges, thin flakes and shallow pods.

FEATURES

- Long throw allows hook to clear larger placements than the Cliffhanger

520225

Talon

Versatile, three-hooks-in-one design.

FEATURES

- Covers edges and holes from 4.8 mm (3/16 in) to 13 mm (1/2 in)
- Super stable design

520200

Pecker

Arched spine clears bulges and bites in tight seams.

FEATURES

- Serrated teeth provide purchase in soft rock
- Integrated wire-cabled sling
- Arched spine clears bulges
- Available in three sizes

520216 - #1
520217 - #2
520218 - #3

RURP™

Thin-crack necessity for shallow, bottoming features and hairline cracks.

FEATURES

- Realized Ultimate Reality Piton—a Chouinard classic
- Integrated wire-cabled sling

520210

Yosemite Hammer

Durable big wall hammer.

FEATURES

- Investment-cast stainless steel head
- Clip-in point for funkness device pin removal
- Pick is drooped for pin leverage
- Equipped with replaceable 13 mm webbing and a shoulder-length runner
- Oiled hickory handle to decrease vibration

500010

Fifi Hook

A simple hook for added efficiency in aiders.

FEATURES

- Sewn 15 cm sling
- Aluminum alloy
- Supports body weight only

620065

Black, Orange

Knif blades

Classic piton for thin cracks.

FEATURES

- Two clip-ins for corner placements and weight reduction

520230 - #1, Standard
520240 - #2, Thick

Bugaboos

Our light weight brother of the Knif blade.

FEATURES

- Two clip-ins for corner placements and weight reduction

520310 - #3, Short Thin
520320 - #4, Long Thin
520330 - #5, Short Medium
520340 - #6, Long Medium

12 mm Dynex Daisy Chain

Our lightweight, minimalist daisy made with Dynex™

FEATURES

- Bottom loop with sewn half twist for clean girth hitch
- Tight weave for stiff feel
- Very compact 12 mm wide design
- Available in two lengths; assorted colors
- For direct aid only

390027 - 115 cm
390028 - 140 cm

Black, Red

18 mm Nylon Daisy Chain

The classic aid climbing tether made from durable nylon.

FEATURES

- Bottom loop is sewn with a half twist for clean girth hitching
- Available in two lengths; assorted colors
- For direct aid only

390013 - 115 cm
390014 - 140 cm

Gray, Red

Angles

For flared pockets, pods and wider cracks.

FEATURES

- Passive spring design for holding power
- Easy clip-in point

520710 - #1, 1/2"
520720 - #2, 5/8"

520750 - #5, 1 1/4"
520760 - #6, 1 1/2"

**Angles UIAA an CE certified

Lost Arrows

Piton for thin to medium cracks.

FEATURES

- Numbered for quick identification

#1, Short Thin
#2, Short Medium
#3, Short Thick
#4, Wedge
#5, Long Thin
#6, Long Medium
#7, Long Thick
#8, Long Dong

520500

**Lost Arrows UIAA an CE certified

Etriers

A webbing ladder for aid climbing.

FEATURES

- Reinforced steps for ease
- 25 mm (1 in) webbing with reinforced clip-in and ballast point
- Available in 5- and 6-step designs
- Sold individually

390030 - 5-Step
390040 - 6-Step

Alpine Aider

A lightweight version of the Etrier.

FEATURES

- Reinforced 5-step design
- 16 mm (5/8 in) nylon webbing is very compact
- Designed for free routes with a few moves of aid
- Sold individually

390050

Zodiac Gear Sling

Dual-shoulder gear sling for long free or aid climbs.

FEATURES

- Dual-shoulder design for easy organization
- Handles large racks
- Fleece lining and zippered pocket
- Available in two sizes

660050

Black

Padded Gear Sling

Classic over-the-shoulder gear sling for trad climbing.

FEATURES

- Adjustable webbing for easy partner changeover
- Fleece lining provides comfort and wicks away moisture

660012

Bosun's Chair

Padded seat for hanging belays.

FEATURES

- Adjustable design for comfort at belay
- Daisy chain for additional organization

810460

Gray

Rope Bucket

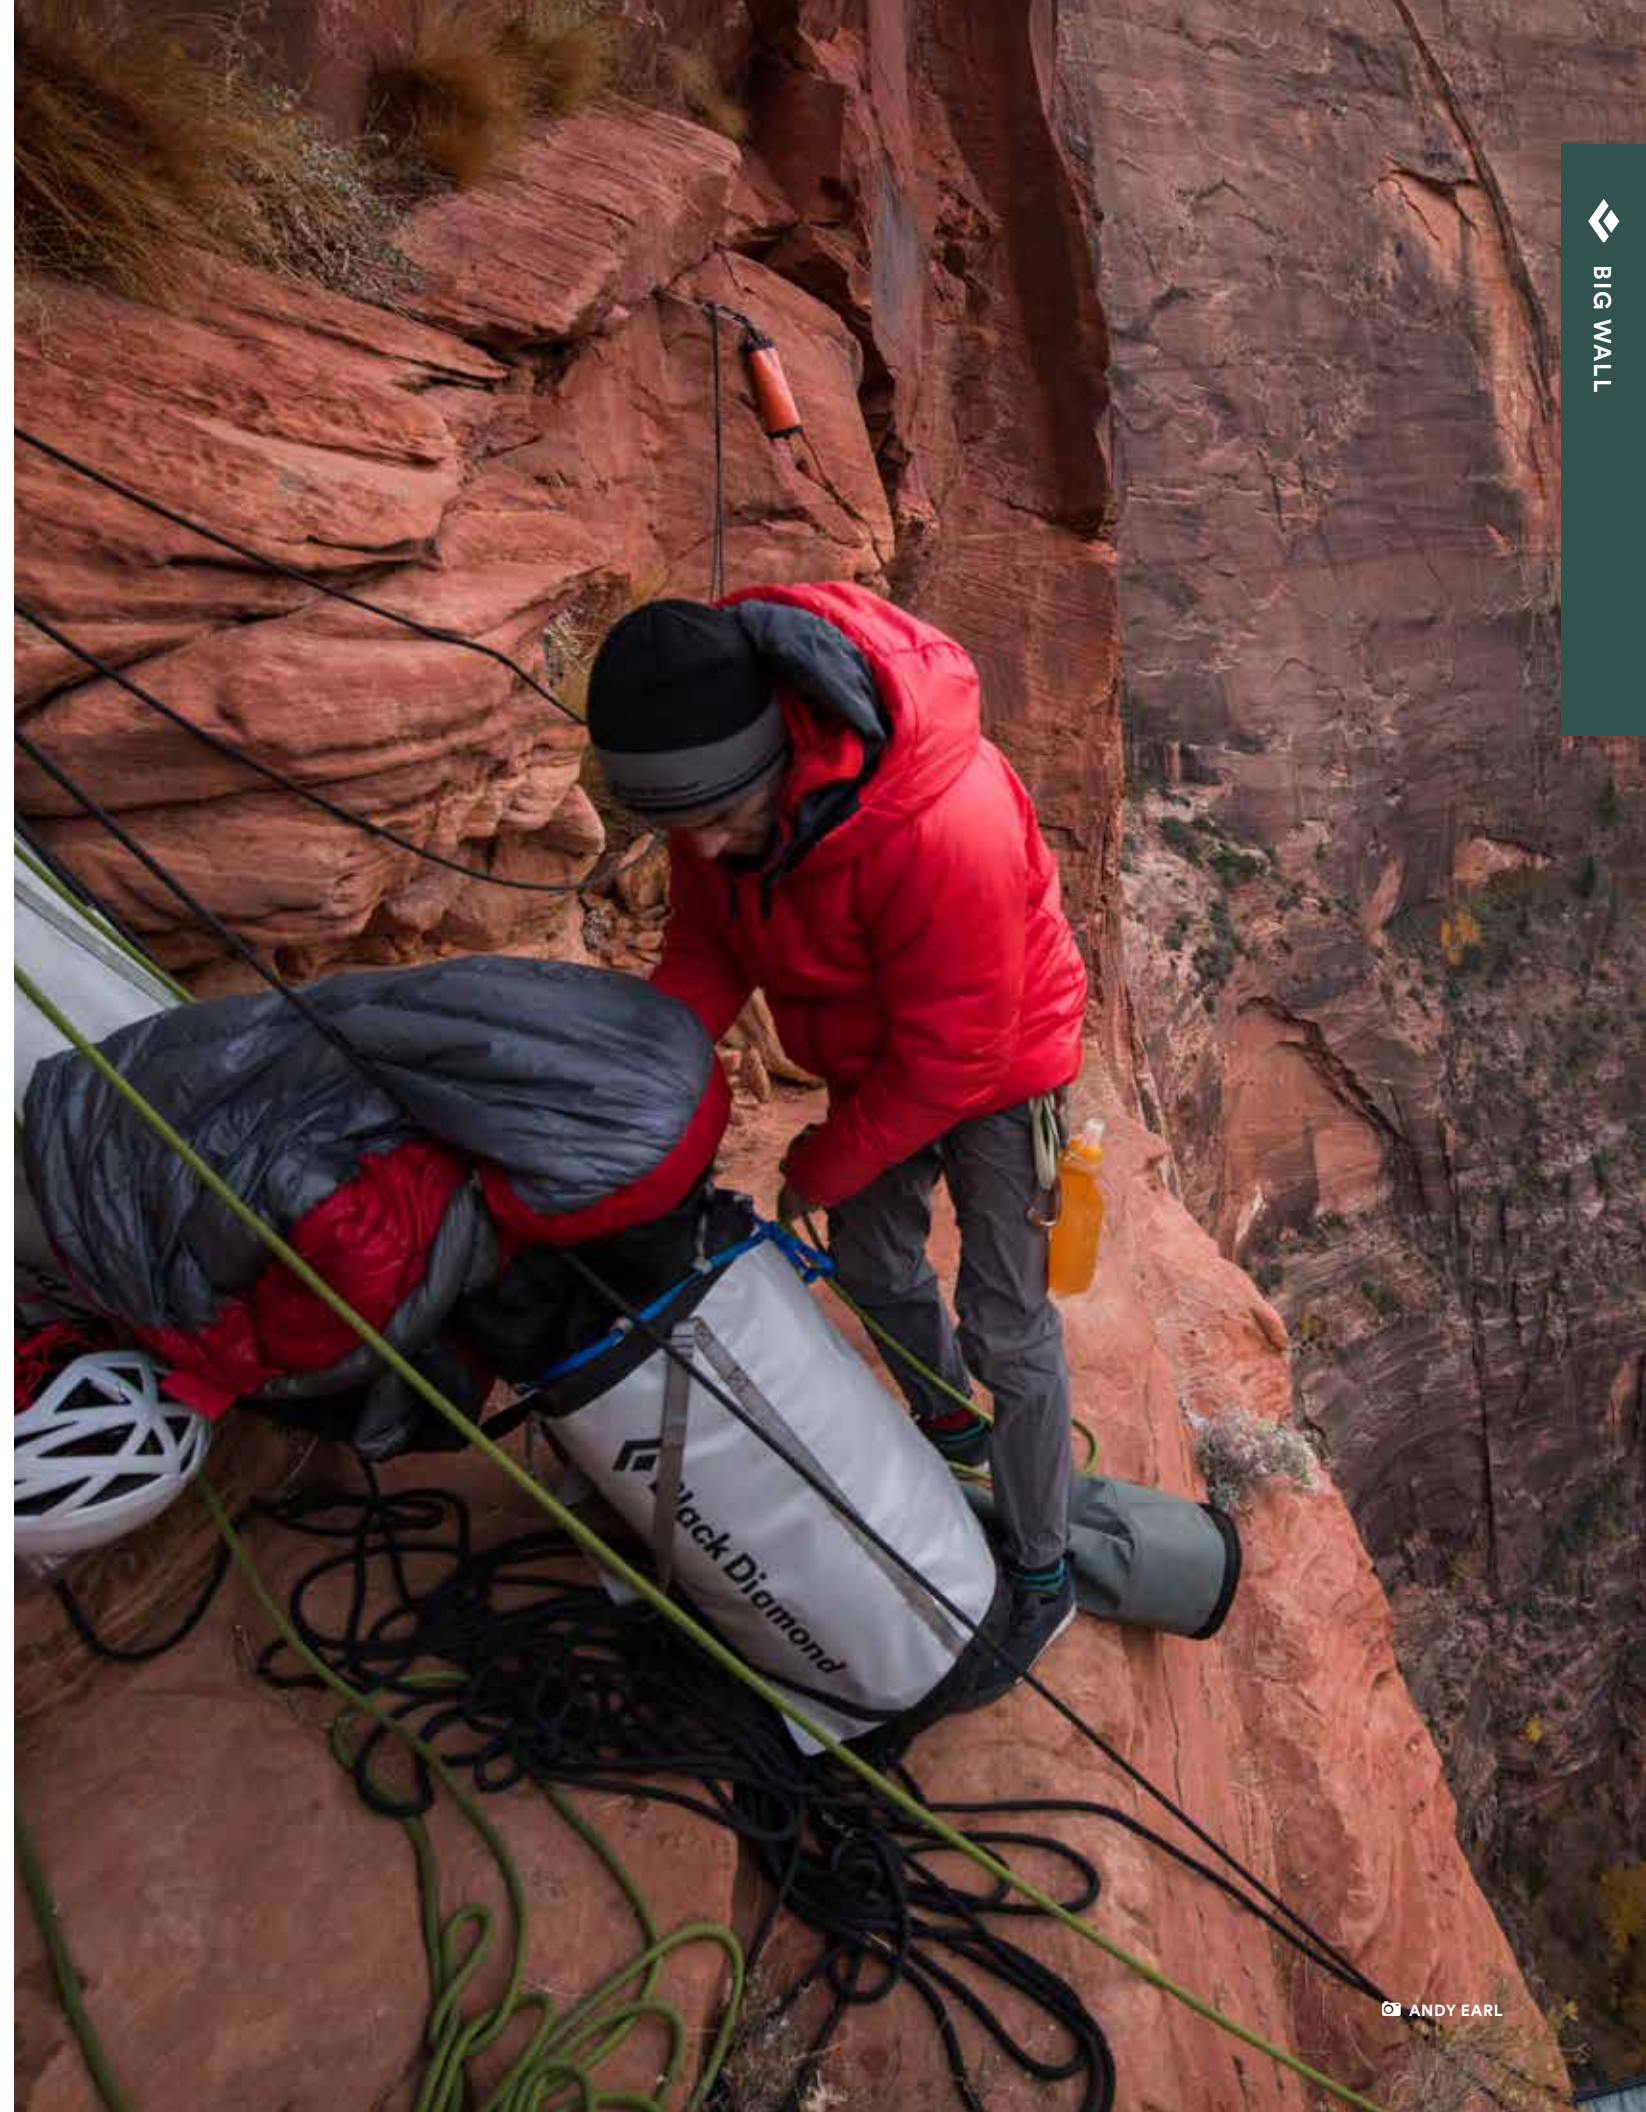

Storage for your cordage.

FEATURES

- Holds two smaller diameter lines or one 11 mm
- Expandable design to manage ropes
- Shoulder straps, two-point suspension and a waterproof bottom

810462

Slinger Leash

A single, lightweight piolet-specific version of our popular Spinner Leash, the Black Diamond Slinger Leash is a stretchy tethering system for keeping your piolet attached without a wrist leash. We've upgraded the leash with a locking carabiner for added security when clipped to your axe's head or spike, we've added extension to the elastic webbing, and we've updated the webbing to polyester which absorbs less water than standard nylon.

FEATURES

- Locking carabiner (non-weight bearing) attaches to spike or head
- Single, lightweight piolet-specific design
- Rated to 2 kN (450 lbf)

411152

Spinner Leash

For hard, technical ice or alpine climbing where you want to climb leashless but can't risk dropping a tool, the Black Diamond Spinner Leash provides a simple and secure solution. This lightweight elastic tether system stretches for maximum reach and the locking carabiners keep your tools securely connected to your harness. A built-in swivel ensures tangle-free climbing.

FEATURES

- Proprietary elastic webbing stretches for maximum reach and absorbs less water than nylon
- Locking carabiners (non-weight bearing) attach to spike or head
- Built-in swivel ensures tangle-free use
- Rated to 2 kN (450 lbf)

411151

Lockdown Leash

An alpine leash optimized for all-day comfort.

FEATURES

- Compatible with any technical ice tool
- Padded wrist strap for comfort and even weight distribution
- Slip-knot configuration tightens when weighted; release by hooking and pulling loop with hammer or adze
- Rated to 2 kN

411145

Slider Leash

A simple, clean mountaineering leash.

FEATURES

- Compatible with any technical ice tool or mountaineering axe
- Lightweight webbing leash with sliding metal barrel to cinch wrist loop
- Rated to 2kN

411141

Cobra/Viper Android Leash

An ice- and mixed-climbing leash with quick-release.

FEATURES

- Cobra/Viper Android designed specifically for the Fall 2007 and newer Cobra and Viper
- Android is compatible with any technical ice tool
- Padded wrist straps distribute weight evenly
- Quick-release clip detaches from shaft for tool-free moves and pro placements
- Rated to 2 kN

411138

Ice Tool Protectors

Ice tool protectors for gear transport.

FEATURES

- Translucent TPU
- Quickly adjustable
- Fits most any tool
- Minimum order quantity of 5

413000 - Axe Protector
413001 - Spike Protector
413002 - Pick Protector

BD Orange

**All Technical Ice Tools UIAA and CE Certified

Reactor

A technical ice tool for all-day pitches on frozen waterfalls, the Reactor is a leashless winter cragging machine. Featuring an innovative, adjustable grip, the Reactor is built to be a versatile tool for frozen winter objectives.

FEATURES

- Comes with Natural Ice Pick
- Shaft CEN-T certified

412059 - 50cm

Onyx/Envy Green

Fuel

A high-performance, all-around mixed tool that's equally at home on steep ice and overhanging rock, the Fuel is the ultimate tool for the modern winter climber.

FEATURES

- Lightweight shaft is hydroformed from a single piece of aluminum that extends through the grip for responsive feel and rigidity (CEN-T)
- Streamlined, two-piece single-bolt head is compatible with all current BD picks
- Hammer version available for increased swing weight and pounding pins
- Dual-density adjustable pommel features spacing washers to accommodate different hand sizes and gloves
- Offset upper grip for modern leashless climbing
- Removable, clippable spike
- Ice+ Pick included (CEN-B)

412087 - 50cm

Onyx/Envy Green

Fuel Hammer Ice Tool

Our high-performance, all-around mixed tool built for the modern winter climber, the Fuel Hammer features a redesigned head that includes a hammer for added swing weight and pounding pins in the alpine.

FEATURES

- Lightweight shaft hydroformed from single piece of aluminum that extends through the grip for responsive feel and rigidity
- One-piece hammer head for increased swing weight and pounding pins
- Dual-density adjustable pommel features spacing washers to accommodate different glove and hand sizes
- Offset upper grip for modern leashless climbing
- Removable clippable spike
- Ice+ Pick included (CEN-B)

412099 - 50cm

Onyx/Envy Green

Cobra

The ultimate carbon fiber tool for leashless mixed, ice and alpine climbing.

FEATURES

- Lightweight, high-clearance carbon fiber shaft
- Balanced with weight in head for damp, accurate strikes
- Natural Ice Pick (CEN-B), Cobra Strike and Fang included, modular head design
- Shaft CEN-T certified, patented

412078 - Hammer - 50cm

412079 - Adze - 50cm

Carbon Fiber

Viper

Completely redesigned for maximum versatility on the myriad demands of winter climbing, the Black Diamond Viper Ice Tool is an easy-swinging, all-around tool.

FEATURES

- Lightweight, hydroformed aluminum shaft extends through the grip for responsive feel and rigidity (CEN-T)
- Adjustable FlickLock upper pommel
- Modular head is compatible with all current BD picks
- Natural Ice pick (CEN-B) included
- Clippable spike

412085 - Hammer - 50cm

412086 - Adze - 50cm

Slate

Hot Forged Mixed Pick

Hence the name, the Mixed Pick is purpose-built for mixed-climbing and drytooling. We've now improved the pick with deeper, aggressive front teeth for hooking, added a chiseled tip for more precise pick placement, and we've increased the pick angle, making it three degrees steeper than the previous Mixed Pick, for optimal drytooling and mixed performance.

FEATURES

- Steep pick angle and chiseled tip for optimal mixed and drytooling performance
- Hot-forged for greater durability
- Fits on all current interchangeable-pick ice tools
- CEN-T certified

405008

Hot Forged Natural Ice+ Pick

The Natural Ice+ features a hot-forged construction for durability, a lower volume tip built to improve penetration and pick placement, and a two-degree-shallower pick angle than our standard Natural Ice Pick for a intuitive ice penetrating swing on even our most aggressive tools.

FEATURES

- Updated low-volume tip geometry for improved penetration and optimized pick angle
- Hot-forged for greater durability
- Built for pure ice for those that like a more open pick angle even on aggressive tools
- Fits on all current interchangeable-pick ice tools
- CEN-B certified

405009

Hot Forged Natural Ice Pick

The Natural Ice Pick thrives on pure ice. Hot-forged for durability and featuring a low-volume tip geometry that's optimized for easier penetration and better cleaning on frozen water ice, this pick belongs on your water ice tools ... trust us.

FEATURES

- Updated low-volume tip geometry for improved penetration and pick placement
- Hot-forged for greater durability
- Built for pure ice
- Fits on all current interchangeable-pick ice tools
- CEN-B certified

405007

Hot Forged Alpine Pick

With the same teeth as the Ice Pick, but with a chiseled tip and a thicker, hot-forged design for greater durability. The Alpine Pick brings increased strength on ice or rock.

FEATURES

- Fits on all current interchangeable-pick ice tools
- CEN-T certified

405006

Hot Forged Mountain Tech Pick

Our technical pick that provides high-angle penetration plus self-arrest functionality on alpine terrain and is now hot-forged for greater durability.

FEATURES

- Fits on all current interchangeable-pick ice tools
- CEN-B certified

405013

Hot Forged Mountain Classic Pick

Classic, durable curve pick engineered for self-arresting and mountain travel, now hot-forged for greater durability.

FEATURES

- Fits on all current interchangeable-pick ice tools
- CEN-B certified

405012

UltraLight Ice Screw

The lightest ice screw in the world, the new BD UltraLight is crucial for fast and light objectives in the mountains. Built for ski mountaineers, glacial travel, and gram-shaving alpinists, these screws feature an aluminum body with steel tip and an innovative wire-gate color-coded handles to differentiate length.

FEATURES

- Aluminum body with steel tip
- Aluminum forged hanger with two clip-in points
- Wire-gate handle
- Color-coded knobs
- CE certified

490331 - 13cm - Yellow
490332 - 16cm - Blue
490333 - 19cm - Gray
490334 - 22cm - Purple

Express Ice Screw

Our fastest-placing steel ice screws.

FEATURES

- Larger crank knobs with uninterrupted 360° motion
- Advanced tooth geometry for easier starting and faster placements
- Stainless steel hangers with two clip points
- Available in five lengths, color-coded for quick indexing
- CE certified, patented
- *10 cm for progression only

490210 - 10 cm - Red*
490213 - 13 cm - Yellow
490216 - 16 cm - Blue
490219 - 19 cm - Gray
490222 - 22 cm - Purple

Turbo Ice Screw

Our versatile, more affordable ice screws.

FEATURES

- Advanced tooth geometry for easier starting and faster placements
- Classic lightweight hanger
- Available in four lengths
- CE certified, patented

490113 - 13 cm
490116 - 16 cm
490119 - 19 cm
490122 - 22 cm

Spectre Ice Piton

Pound-in protection for thin ice or mixed lines.

FEATURES

- Aggressive pick angle and teeth
- Equipped with an adjustable nylon sling

490051

Black Oxide

Stinger

A lightweight, stainless steel monopoint crampon for serious ice and mixed climbing.

FEATURES

- Asymmetrical stainless steel design won't rust and fits the contours of modern boots
- Mono frontpoint is replaceable at low cost and can be changed quickly and easily in the field
- Hooded frontpoint and aggressive secondary points are optimized for precise, secure placements
- Low-profile micro-adjust heel lever offers precision fit
- Thin, low-profile toe bail and thinner, shorter heel wire for improved fit with modern boots
- Includes front and rear dual-density ABS
- Includes narrow and regular toe bails

400029

Polished

Cyborg Pro

A high-end ice and mixed climbing crampon with a lightweight stainless steel design.

FEATURES

- Distinctive stainless steel construction is durable, resists snow balling and won't rust
- Low-profile micro-adjust heel lever offers precision fit
- Adjustable, hooded frontpoints and aggressive secondary points
- Accommodates boots with a toe welt
- Includes dual-density ABS
- Includes narrow and regular toe bails

400032

Polished

Sabretooth

Our best all-around crampon, the Sabretooth features a super-stable yet technical design with a redesigned stainless steel construction that's optimized for added durability.

FEATURES

- Redesigned stainless steel construction is durable, resists snowballing and won't rust
- Versatile horizontal frontpoints and technical secondary points
- Low-profile micro-adjust heel bail offers precision fit
- Pro version accommodates boots with a toe welt
- Clip version features flexible toe strap for boots without a toe welt
- Includes front and rear dual-density ABS
- Pro version includes narrow and regular toe bails

400045 - Pro
400044 - Clip

Polished

Serac

Stable, durable and reliable on snow and glacier travel, the Serac is a classic 12-point crampon with a stainless steel construction.

FEATURES

- Stainless steel construction is durable, resists snowballing and won't rust
- Versatile horizontal frontpoints with classic secondary points and wider rear points for increased stability while descending
- Low-profile micro-adjust heel bail offers precision fit
- Clip version is for mountain boots without a toe welt; Strap version is for non-technical footwear
- Includes front and rear dual-density ABS

400041 - Strap
400042 - Clip

Polished

Contact Strap

A classic 10-point crampon for mountaineers, skiers and hikers with a lightweight stainless steel design.

FEATURES

- Distinctive stainless steel construction is lightweight, durable, resists snow balling and won't rust
- Flexible toe strap fits most footwear for easier glacier or snow travel
- Includes dual-density ABS

400069 - Strap

Polished

Neve

A 10-point snow climbing crampon that pushes the envelope in performance, weight reduction and style.

FEATURES

- Lightweight, aluminum crampons
- Highly formed front and rear rails
- Pro version features wide steal toe bail and aluminum rear wire bails with a micro-adjust heel lever for telemark, ice and randonnéé boots
- Strap version features a softer strap that better accommodates trekking and trail running footwear
- Includes dual-density ABS

400071 - Strap
400072 - Pro

BD Orange

Ice Clipper

A simple solution for racking ice screws, the Ice Clipper features an updated geometry for winter and alpine climbing performance.

FEATURES

- Optimized geometry for added security and performance
- Integrated clip sits securely in harness slots and eliminates rotating
- Racks up to six screws
- Textured, flat top shelf

490102

Black

Blizzard Holster

Makes racking tools on your harness quick and easy.

FEATURES

- Securely holds two ice tools or a big wall hammer
- Polyethylene reinforced webbing for a flexible yet stiff feel

411190

Black

Ice Screwup

Convenient and space-efficient screw carrier.

FEATURES

- Snag-free slots for 6 screws and a zippered mesh pocket to hold caps
- Secure buckle closure

400155

Orange

Toolbox

Storage for sharp points in luggage or pack.

FEATURES

- Holds crampons, screws or Spectres
- Features a quick-release clip, drain holes and hook-and-loop closure
- Interior zippered pocket for spare picks and files

400100

Black

Crampon Bag

Protects your crampons for travel and pack use.

FEATURES

- Durable vinyl-coated nylon
- Zippered mesh lid for air drying

400156

Orange

** All Ice Screws UIAA and CE certified

Torque

A durable, slim-fitting glove with a super-sticky palm ideal for drytooling and mixed cragging, the Torque's lightweight construction provides incredible sensitivity without palm rolling.

FEATURES

- Abrasion-resistant woven softshell
- Slip-stop palm for unparalleled grip
- Laminated, brushed tricot lining
- Articulated neoprene cuff with hook-and-loop closure and carabiner clip loop
- Compression-molded EVA padding for impact protection
- Size: XS-XL

801667

Black

Punisher

Designed for ice and mixed climbing in milder temperatures, the Punisher provides the sensitivity and dexterity needed for hard climbing in variable conditions.

FEATURES

- 100% waterproof BD.dry™ insert
- Abrasion-resistant, woven nylon shell with four-way stretch
- Fixed 100 g fleece lining
- Goat-leather palm, palm patch with Kevlar® stitching and capped fingers
- Compression-molded EVA padding on knuckles for impact protection
- Ice-tool-specific pre-curved fit and articulated fingers provide a comfortable, sure grip
- Size: XS-XXL

801659

Black

Terminator

A minimalistic yet protective glove ideal for drytooling, mixed routes and ice climbing in milder temperatures, the Terminator features our highest level of dexterity with full waterproof protection.

FEATURES

- Fixed lining with 100% waterproof BD.dry™ insert
- Woven nylon shell with four-way stretch
- Goat-leather palm and capped fingers
- Neoprene cuff with hook-and-loop closure
- 40 g Thinsulate® insulation
- Compression-molded EVA padding on knuckles for impact protection
- Suede leather nosewipe on thumb
- Size: XS-XL

801664

Black

Enforcer

Our premier cold-weather ice climbing glove, the Enforcer provides maximum dexterity, maximum warmth and maximum protection against impacts and wet ice.

FEATURES

- 100% waterproof and breathable GORE-TEX + Gore warm technology
- Woven nylon shell with four-way stretch
- Fixed lining with 170 g PrimaLoft® Gold insulation on back of hand
- Goat-leather palm, palm patch with Kevlar® stitching
- Compression-molded EVA padding on knuckles for impact protection
- Ice-tool specific pre-curved fit and articulated fingers provide a comfortable, sure grip
- Size: XS-XL

Via Ferrata

The most important facets of via ferrata equipment are ease of use, simplicity and security. Enter Black Diamond's Iron Cruiser and Easy Rider via ferrata carabiners and lanyard sets. Using 50-plus years of carabiner design and manufacturing experience, we build the most user-friendly and ergonomic via ferrata-specific carabiners and energy-absorption sewn system in the world.

Iron Cruiser Via Ferrata Set

2 Iron Cruiser carabiners have a slide-down locking sleeve that easily operates with one hand.

FEATURES

- New low-profile, Dyneema Energy Absorption System limits load impact in case of a fall
- Extendable, bungee-style lanyards
- Webbing loop attaches directly to the harness

620130

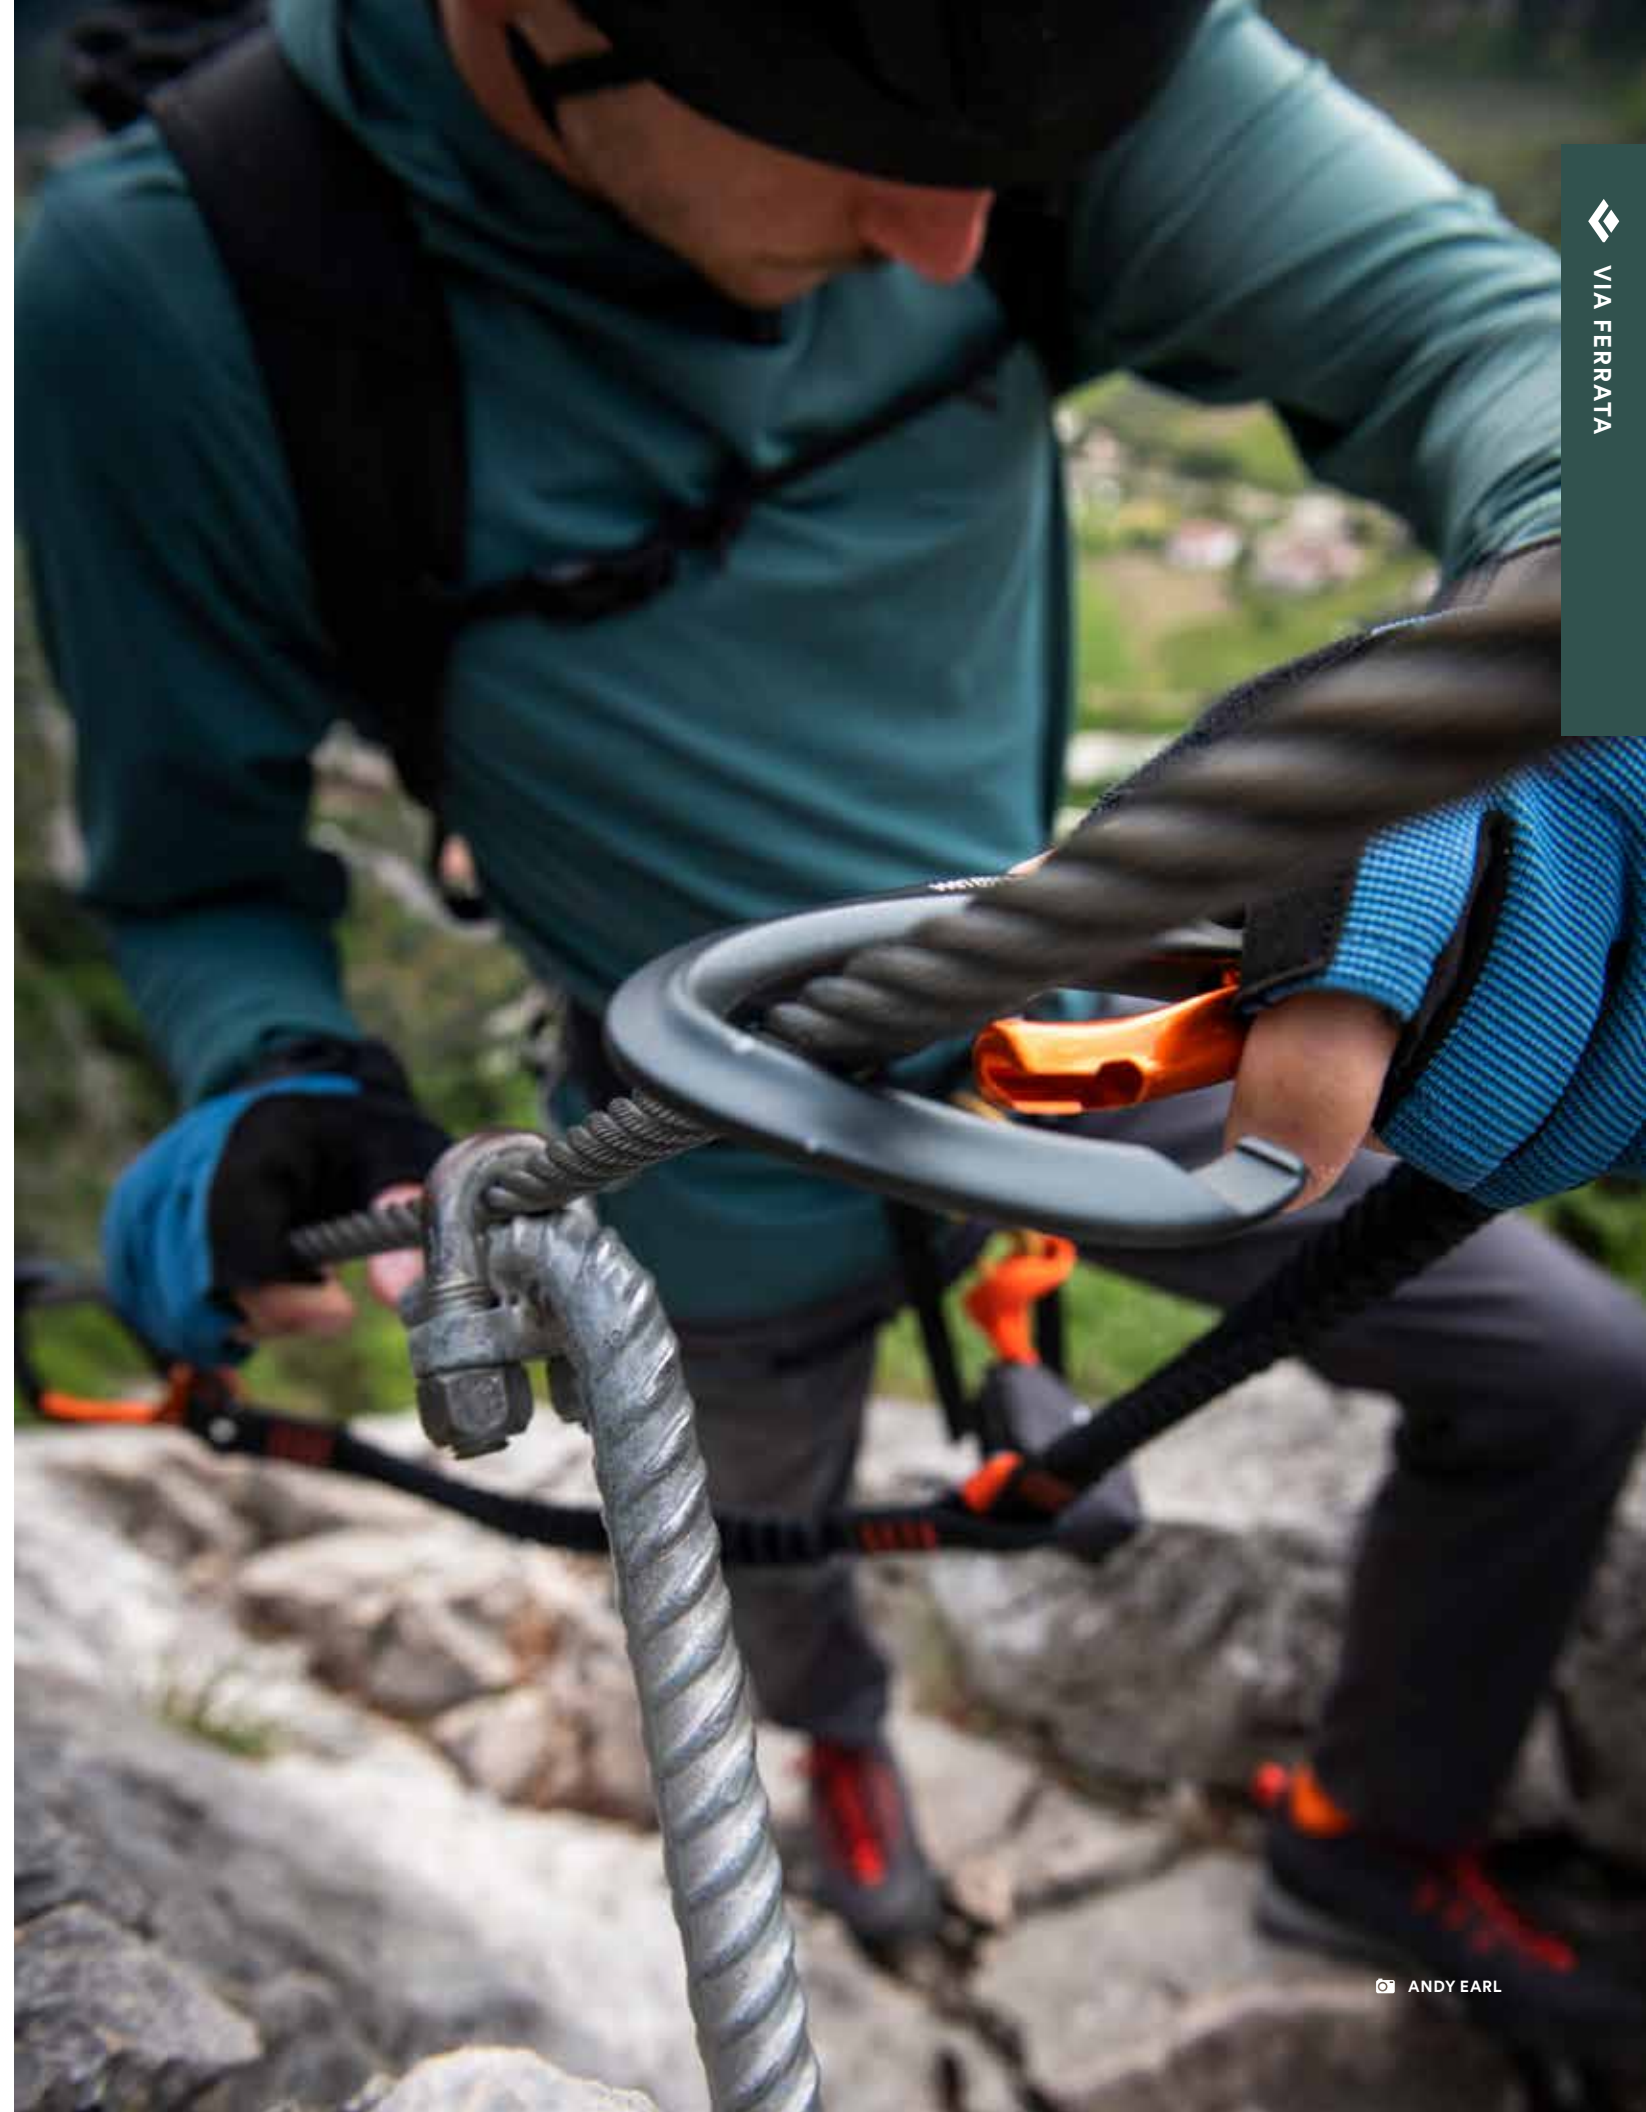

Easy Rider Via Ferrata Set

2 Easy Rider carabiners have internal locking mechanism with squeeze actuation for easy one hand use.

FEATURES

- New low-profile, Dyneema Energy Absorption System limits load impact in case of a fall
- Extendable, bungee-style lanyards
- Webbing loop attaches directly to the harness
